## HEY, KIDS! COME ON AND JOIN THE STAR'S JUST KIDS SAFETY CLUB

You've Got To Promise to "Remember To Look Up and Down  
Before Crossing the Street." Names Will Be Printed  
in Paper and Buttons Given to Members

The studies of Marion want to be  
careful.  
There have been reading about Mus-  
sini and the other boys and girls in "Just  
Kids Safety Club" in Marion. The  
club is going to organize a "Just Kids  
Safety Club" in Marion. There are only a  
couple of rules that must be obeyed. These  
are to look up and down before crossing  
the street before crossing. The club has  
ordered a big supply of "Just Kids Safety  
Club" buttons and will give them away  
within a few days. In the meantime all the  
boys and girls of

Columbus, April 4—Gov. Vic Don-

der consideration the proposal of  
friends of Lieut. Gov. Earl D. Bloom,  
Bowling Green, Democrat, that the  
governor appoint Bloom as state di-  
rector of commerce in the event that  
Donahy selects Attorney Cyrus  
Locher, Cleveland, Democrat, now  
director of commerce, to succeed the  
late U. S. Senator Frank B. Willis  
in the United States Senate.

have been importing the governor  
to appoint Judge Florence Allen of  
the Ohio Supreme Court, former U.  
S. Judge John Peck, Cincinnati, and  
Charles E. Wharton, Kenton, to the  
senatorship, it was indicated this af-  
ternoon that the governor has made  
up his mind to appoint Locher.

## LOCAL CONCERT SERIES DATES FIXED BY CLUB

Second Annual Program of  
Free Recitals To Start  
April 15  
AT MARION THEATER  
Three Sunday Afternoon  
Entertainments Planned for  
This Month

April 15, 22 and 29 are the dates  
chosen by members of the Marion Lec-  
ture-Recital Club for presenting the  
second annual series of free Sunday  
afternoon recitals. It was announced  
today by Mrs. Eugene Moore, chairman  
of the committee in charge of arrange-  
ments. The concerts scheduled for  
each of these Sunday afternoons will  
be presented at the Marion Theater  
between 4 and 5 o'clock. They are  
the club's annual contribution to civic  
interests of the city and are open to  
the public.

While complete plans for the con-  
certs have not been made a number  
of unusually entertaining features have  
been arranged, which promise to make  
this year's program most attractive to  
music lovers of the city and vicinity.

Appearing on the program April 15  
will be members of the mixed quartet  
of the First Presbyterian Church, com-  
posed of Miss Margaret Brinkman of  
Columbus, Miss Ruth B. Henderson  
of Bucyrus, V. C. Smith and Harwood  
Taylor of this city.

Members of the Colonial quartet of  
the Lecture-Recital Club, composed of  
Mrs. Karl W. Schell, Mrs. R. O. Brea-  
ler, Mrs. Eugene Moore and Miss Dora  
Jacobs will be heard Sunday after-  
noon, April 22, together with other  
members of the club, and at the con-  
cluding program, April 29, Miss Helen  
Stecker, of Upper Sandusky, Cornell, and  
Miss Emma Woelke, of this city,  
will be presented.

Assisting Mrs. Moore on the com-  
mittee in charge of arrangements for  
the concerts are Mrs. H. K. Henderson  
and Miss Ada Bowen.

## NEW SECRETARY.

EARL N. HULE, recently  
elected secretary of the  
Marion Y. M. C. A. is expected to  
arrive on or before May 1 to  
take charge of his work here. He  
will remain in Tiffin, where he has  
been employed as secretary, until  
his successor is appointed there.

## CITY OFFICES CLOSE FRIDAY

Will Join Wholesale Firms in  
Three-Hour Religious  
Observance

Closing of city hall offices and  
wholesale houses, in order that officials  
and employees may attend the union  
services to be held at the First Presby-  
terian Church from 12 to 3 o'clock  
Friday, will mark Good Friday observ-  
ance in the city. These places are closing  
in response to a request, made yes-  
terday by Mayor Earl Hazen that busi-  
ness places in the city close for the  
three-hour period.

Marion retail merchants will not act  
as a group in closing for observance of  
the day as it was stated today by Kenneth  
Hulse, secretary of the Marion Retail  
Merchants' Bureau.

No General Closing  
While individual merchants may  
close their stores from 12 o'clock to 3  
p. m., the time assigned for the union  
services, there will be no general closing  
fields stated.

## WATCH OUT NANCY

Mumtaz Begum, Who Cost Former  
Maharajah Throne, Vanishing Again  
London, April 5—A beautiful Indian  
dancer girl—Mumtaz Begum—whose  
charms cost Tukojirao Holkar his  
throne as maharajah of Indore, may in-  
trude Cleopatra-like into the honeymoon  
of the former maharajah and his  
American wife, Nancy Ann Miller of  
Seattle, Wash., according to an Am-  
erican dispatch to the Indian News  
Service today.

## OPPOSE NANCY'S RETURN

Seattle Organization Would Keep Girl  
and Husband Out  
Seattle, Wash., April 5—The city in  
which Nancy Ann Miller grew to  
womanhood and became a prominent  
social leader, had in its midst today  
the beginning of a movement opposing  
the return of the Hindu bride and her hus-  
band, Tukojirao Holkar, former maharajah  
of Indore, to the United States.

## AH, MEN, LOOK!

COLUMBUS, April 5—Gentle-  
men with "it" will wear tan  
trunks today, and those without  
"it" should do so, too, if they wish  
to shine in the Easter parade.  
Tan with a dash of lavender or  
deep purple, and if you wear a cane  
it may be gray.

## PERSONAL TAX LISTING PLANS ARE ANNOUNCED

Blanks for Returns To Be Mail-  
ed to 11,000 Residents  
of County

AUDITOR IN CHARGE

Filing Time To Start Monday;  
Schedule of Automobile  
Values Fixed

Eleven thousand residents of Marion  
County will receive blanks for listing  
their personal property for taxation on  
Monday of next week, according to an  
announcement made today by County  
Auditor Carl F. Thomas. The blanks  
will be mailed Saturday.

The Sunday before the second Mon-  
day in April is designated by law as  
tax listing day. Coincidentally the  
day this year falls on Easter Sunday.  
All returns on personal property must  
be made by May 1, according to Audi-  
tor Thomas. A penalty of 50 per cent  
of the listed value of property will be  
added for late filing or failure to file.

## VALUATION SCHEDULE

Auditor Thomas this morning an-  
nounced a schedule of valuations to be  
placed upon automobiles in filing  
returns.

A 1928 model car purchased after  
Jan. 1 of this year is to be listed at  
80 per cent of the 1928 list price. A  
car of the same model purchased be-  
fore Jan. 1 is to be listed at 75 per  
cent of the 1928 list price. Other  
rates are: 1927 model, 60 per cent;  
1926 model, 40 per cent; 1925 model,  
30 per cent; 1924 model, 20 per cent.  
In filing returns the 1928 list price  
of the car and not the original pur-  
chase price is to be used in computing  
the present value. All cars purchased  
prior to 1921 are to be listed at their  
true value in money.

While blanks are being mailed to all  
residents of the county whose names  
appear on the records of the auditor,  
the fact that one does not receive a  
blank by mail does not relieve per-  
sons of the responsibility of making a  
tax return, Mr. Thomas states. The  
50 per cent penalty will be placed upon  
all who fail to list their personal prop-  
erty by May 1.

Although returns may be sworn to  
by any qualified officer and mailed to  
the auditor's office, the staff in the  
county office is preparing to handle a  
large number in the courthouse. The  
entire staff in the office will be avail-  
able for the work, according to Mr. Thomas.

Saturday morning at 10 o'clock  
there will be a meeting of assessors in  
the auditor's office. Instructions and  
supplies for tax listing will be given  
the assessors by Auditor Thomas.

## FOUR DIE AS HEAVY STORM HITS STATES

Damage in Arkansas, Kansas  
and Oklahoma Expected To  
Reach \$500,000

Kansas City, Mo., April 5—Four per-  
sons are dead and several hundred  
families homeless today as result of  
storms and heavy rains over widespread  
areas in Arkansas, Kansas and Okla-  
homa last night, according to reports  
here.

Mr. Joseph Campbell and Charles E.  
Lewis are dead at Shawnee, Okla.,  
their bodies having been recovered from  
a devastated area along the Canadian  
river at that city where seven inches  
of rain last night sent the Canadian  
river on a rampage.

Mrs. Anna Green, 25, Topeka, Kan.,  
died from injuries suffered when a high  
wind demolished her suburban home  
and a 12-year-old boy was burned to  
death near Lincoln, Ark., when moun-  
tain forest fire spread over a wide  
area fanned by high winds.

Shawnee, Okla., on the Canadian  
river reported a torrential rain of  
cloudburst proportions and nearly 1-  
100 persons were driven from their  
homes along the river.

Nearly \$200,000 damage has resulted  
from the strong winds which struck  
southern Kansas and Oklahoma  
fields near Wichita, Kan.

Several rivers in southwestern Kan-  
sas and northern Oklahoma are swollen  
out of their beds.

## TEXAS HIT

Fort Worth, Texas, April 5—Three  
east Texas towns today were wrecked  
by the damage caused by small cyclones  
at that section last night.

At Santa Ana, Coleman County, nine  
persons were injured when a tornado  
hit four miles south of the city. Ten  
houses were demolished and a number  
of roofs were blown off in Santa Ana.

Meager reports from Bangs, Brown  
County, stated houses there were de-  
stroyed and others partially wrecked.  
No loss of life was reported.

A dozen houses were blown away  
by a tornado that struck Goulds-  
burg, in the southern part of Coleman  
County. The business section escaped  
damage, however, according to reports.

## Depew Was Never "Blue"

NEW YORK, April 5—"Work  
laugh" was Chauncey M.  
Depew's formula.  
"Let me talk to a man for five  
minutes and I can tell you whether  
he will live to be 65," he said.  
"I have lived longer than  
others," he told an interviewer a  
short time before his death. "It has  
been because I had the will to be  
wiser than others. Take eating,

## Local Churches Complete Arrangements For Special Easter Sunday Program

Sermons and Music Prepared for Impressive Observance by All  
Marion Organizations; Good Friday Union Service To  
Climax Holy Week Devotions

PREPARATIONS are being made  
this week by local pastors for ap-  
propriate observance of Easter, the  
crowning festival of the church cal-  
endar, which this year comes next Sun-  
day, April 8.

Several Marion churches are now in  
the midst of Holy Week services. St.  
Mary's Catholic, St. Paul's Episcopal,  
Evangelical Lutheran, Wesleyan, M. E., St.  
Paul's Evangelical Lutheran, Protestant  
Street M. E. and Greenwood Evangelical  
churches, and at the Church of  
Brethren where pre-Easter services are  
in progress.

## DAVEY SCHEDULED HERE ON APRIL 30

Democratic Gubernatorial Can-  
didate Booked for One or  
More Speeches

Announcement that Congressman  
Martin L. Davey of Kent will prob-  
ably be in Marion on April 30 to ad-  
dress a meeting of local Democrats  
was made today by H. H. DeLong local  
Democratic organization member, fol-  
lowing a telephone conversation with  
Davey's secretary.

It is expected that Davey will also  
deliver one or more addresses an-  
dresses while here. One proposed  
would be a gathering of school  
children and the other is planned for  
an afternoon meeting of club women.

Davey, who recently announced his  
 candidacy for the Democratic nomi-  
nation for governor, is one of the coun-  
try's leading forestry experts. His  
local addresses, aside from the one at  
the Democratic meeting, will probably  
be on that subject. He will discuss  
political issues at the Democratic  
gathering, expected to be held follow-  
ing a banquet at night.

## SPORTSMAN DROWNED

Milton J. Beatty's New Speed Boat  
Found on Ice Flood

Janestown, N. Y., Milton J. Beatty,  
32, of Warren, Pa., a prominent sports-  
man and wealthy oil operator, is be-  
lieved to have been drowned. A Clam-  
panga Lake. He went for a trial spin  
in a new speed boat and has not been  
seen since. The boat was found today  
on a small ice floe.

Beatty was well known as an op-  
erator in the Pennsylvania and Oklahoma  
oil fields. He leaves a wife and two  
children.

## YOUTH IS DROWNED AFTER BEING STRICKEN IN BOAT

Huron, April 5—Taken suddenly ill  
while fishing, James J. Duffy, 18, of  
Huron, fell into the river near here and  
was drowned. A companion, Russell  
Lassen, 17, had gone for a doctor when  
Duffy complained of being sick, but  
when they returned, Duffy was miss-  
ing. The body was recovered after the  
river had been dragged.

## DEATH COMES AS SURPRISE TO HIS FAMILY

New York Central Board Chair-  
man Victim of Bronchial  
Pneumonia

U. S. SENATOR TWO TERMS

Famed as After-Dinner Speak-  
er; Many Times Millionaire;  
Had Unusual Philosophy

New York, April 5—Chauncey  
Mitchell Depew, chairman of the board  
of directors of the New York Central  
Railroad, former United States senator  
and long a prominent figure in the Re-  
publican party, died of bronchial pneu-  
monia at his home here at 4:30 o'clock  
this morning. He was 93 years old.

Mr. Depew fell into a deep sleep at  
7 o'clock last night and died without  
regaining consciousness, according to a  
statement issued by his physicians.

Members of his family were summoned  
into the sick room at 8 o'clock and re-  
mained at the bedside until the end.

Mr. Depew suffered a slight chill upon  
his return from St. Petersburg, Fla.,  
last week, and was confined to his home  
with a cold. Late yesterday his phys-  
icians announced that his condition  
had taken a turn for the worse, but  
stated that his general condition was  
not alarming.

Family Is Called  
During the reassurances of the doc-  
tors, Mr. Depew's entire family was  
called to the home. The relatives at  
the bedside were Mrs. Depew, a son,  
Chauncey M. Depew, Jr., a niece, Miss  
Anna Depew, and a nephew.

Chauncey Depew, a member of the  
Marion, N. Y.

Although bronchial pneumonia is  
considered a serious illness for a man  
of Mr. Depew's age, physicians in at-  
tendance were confident almost until  
the end that he would recover, and the  
suddenness of his death came as some-  
thing of a shock. The period of some  
highly unusual symptoms, and last  
night his temperature dropped from 104  
to 102, according to a bulletin issued  
by his physicians.

General announcement of Mr. Depew's  
death was made by his physicians, Dr.  
Samuel W. Jantner and Dr. H. E. Leman  
Hooper, at the Depew home, 27 W.  
54th st. Only yesterday morning they  
had announced that their noted patient  
was suffering from nothing more than a  
cold and that there was no cause for  
alarm.

Was Nihil Active  
Mr. Depew still was active this year  
as the head of the New York Central's  
board of directors. He had planned  
to attend the Republican national con-  
vention in Kansas City on June 12. The  
Cleveland convention of 1924 was the  
first he had attended since 1888.

Mr. Depew had made plans for an  
informal birthday celebration on April  
23. On that date he would have been  
94 years old.

Upon each of his birthdays in recent  
years, Mr. Depew had received news-  
paper reporters at his office for inter-  
views. Upon these occasions he would  
reveal his philosophy on politics, busi-  
ness, art, the "younger generation" and  
turn to Page 5.

## MRS. DONAHY AND DAUGHTER INJURED

Their Auto and Bellefontaine  
Pastor's Car in  
Collision

Columbus, April 5—Mrs. A. V. Don-  
ahy and Mrs. J. W. Hoffman, wife  
and daughter of Gov. A. V. Donahy,  
today were recovering at the governor's  
manor, from injuries sustained late  
yesterday when their auto collided with  
that of Rev. Asa Kettle of Bellefontaine,  
near West Liberty.

Mrs. Donahy was cut about the  
head when she struck the windshield  
and Mrs. Hoffman sustained a frac-  
tured right arm while protecting her  
baby, Margaret, from injury.

The accident, it is said, was unavoi-  
dable. It occurred when the governor's  
auto crashed into the rear of Rev.  
Kettle's auto when the motor of the  
latter car stalled.

The governor's wife and daughter  
were returning to Columbus from In-  
dian Lake at the time of the accident.  
The governor's chauffeur, Hampton  
Adams, was driving. Reverend and  
Mrs. Kettle were driving to Columbus  
to celebrate their tenth wedding anni-  
versary.

## DESERVES MEDAL

Toledo Boy Saves Lives of His  
Companions

Toledo, April 5—Today, Leo Wash-  
burn, 12, is the candidate for a hero  
medal; yesterday he was just a com-  
mon foot boy scout. Leo saved the life of  
Leo Francis Adair, 3, who fell into the  
quicksands of Sibley Creek when he at-  
tempted to catch a frog. Leo was at-  
tracted to the scene by the screams of  
seven-year-old Jacqueline Adair, Leo's  
sister.

Seeing the boy sinking into the quick-  
sands the Boy Scout grabbed a willow  
branch and leaped into the water, se-  
ized the sinking Adair boy by the hair  
and brought him to shore.

### No Apologies Necessary

NO part of your house is subjected to harder wear than your porches. Exposed to all kinds of weather and the tread of countless footsteps, they soon become worn and shabby looking.

Paint them with Foy's Porch and Deck Paint and you need not worry about your guest's first impression of your home.

Foy's Porch and Deck Paint is made especially for the purpose. It is easily applied and dries with a hard, durable surface that withstands the hardest wear.

Your porch furniture, too, can be kept new looking with a coat of two of Foy's Dri-Fast Enamel—the ideal enamel finish for all outdoor use.

There is a Foy Dealer near you who will gladly furnish you with color cards and prices.

THE FOY PAINT COMPANY  
CINCINNATI, OHIO  
MANUFACTURERS OF PAINTS FOR EVERY PURPOSE

**PORCH and DECK PAINT**

FOR SALE BY

Leslie Adams Lumber Co., Marion, O.

In open daily from 8 o'clock on the morning until 10 o'clock at night for the remainder of the week. A corps of salesmen will be on the floor to show visitors the new models and styles in Buicks.

The company has 15 cars in a variety of models and paint combinations on the floor for the show. A four-door passenger brougham, black trimmed in green, is one of the models being featured. To show the contrast in color schemes, as well as the variety of colors in which Buicks may be obtained, a car of the same model, but brown trimmed in demure red, is being shown beside the black brougham.

#### Roadster Attractive

Another model that is attracting the attention of early visitors and passers-by is a sport roadster of rare lines with a two-tone green paint combination. The one-piece windshield that lowers forward over the hood, the rumble seat, and the lowered top give the car a distinctive appearance that

has drawn favorable comment from many, according to officials of the company.

Another feature of the show will be the display of a 124-inch wheel base chassis showing many distinctive and exclusive Buick features of construction which, ordinarily are not seen by the average motorist who buys a car for what he sees on the outside.

At a get-together meeting for salesmen and salesmen held last night at the company headquarters here, Earl E. Danner, sales manager, displayed a chart showing that 43 per cent of the sales of the Marion Buick Co. for the year 1927 were to former Buick owners. About 23 attended the meeting.

## D. P. JOHNSTONE TO EDIT COLLEGE PAPER

Student from Marion Elected Head of Ohio State Engineer

Donald P. Johnstone, of Marion, has been elected editor of the Ohio State Engineer, a monthly publication issued by students of the College of Engineering of Ohio State University, according to an announcement made at the university today.

The Ohio State Engineer is recognized as one of the leading student engineering publications in the country.

Johnstone is a former employee of the Marion Steam Shovel Co. At present he is a student and part time instructor in engineering at Ohio State.

## CONNECTICUT TO BUILD NEW STATE HIGHWAY

Hartford, Conn.—The Old Boston Post Road from Hartford to New Haven, by way of Wethersfield, where the witches were smothered in Colonial days, and Middletown, where war vessels were built in the Revolution, is to have a rival in a road that the state highway department is planning to build between the first cities of Connecticut.

The new road is to avoid the large towns from Hartford south and keep away from the Connecticut river which has the habit of wiping out highways almost without notice. A fairly straight stretch of ninety-foot highway is projected through the villages of Griswoldville and Westfield Station, places that still have an ancient air, directly south to a point west of Middletown to connect with highways to Meriden and Durham.

## CHICAGO SCHOOL BOARD HAS \$2,205,991 DEFICIT

Chicago, Ill.—The Chicago Board of Education is faced with a deficit of \$2,205,991 from expenditures during the past year.

In 1928, as a consequence, the Board will ask a budget of \$4,046,020, which means an increased assessed valuation in this city of \$900,000,000.

Dealing in millions of dollars monthly to educate the children of Chicago, the board has found it necessary to increase its budget for the coming year by \$4,724,013 over 1927.

The exclusively educational program of the school system here has been estimated at \$48,250,450 a year.

Despite the large deficit of last year, however, there is no danger of reduction of the 1928 program, nor of laying off teachers or reducing salaries, according to J. Lewis Cook, president of the board.

## "A Grand and Glorious Feeling!"

When you place in your safe-deposit box a fire insurance policy fully covering your home, you will experience a rare degree of satisfaction.

And, of a windy, winter evening, when someone remarks "A terrible night for a fire," that feeling of satisfaction will deepen into one of comfortable security.

# Blindfolded . . . in scientific test of leading Cigarettes, Princess Paul Chavchavadze selects **OLD GOLD**

"I was much intrigued by the invitation to make a blindfold test of your leading brands of American cigarettes, to see how they compared with each other and with those I had smoked abroad. Could one really taste the difference? I wondered.

"But when I was handed these cigarettes, one by one, I realized at once that there was a difference and that the test was conclusive. One cigarette was so much more appealing, so much more delicate in flavor. Oh, and so much smoother!

"When the test was over and I was told that the cigarette of my choice was Old Gold I understood at once why this cigarette is so popular among my American friends."

*Nina Chavchavadze*

PRINCESS PAUL CHAVCHAVADZE, Sister of Mrs. Wm. B. Leeds

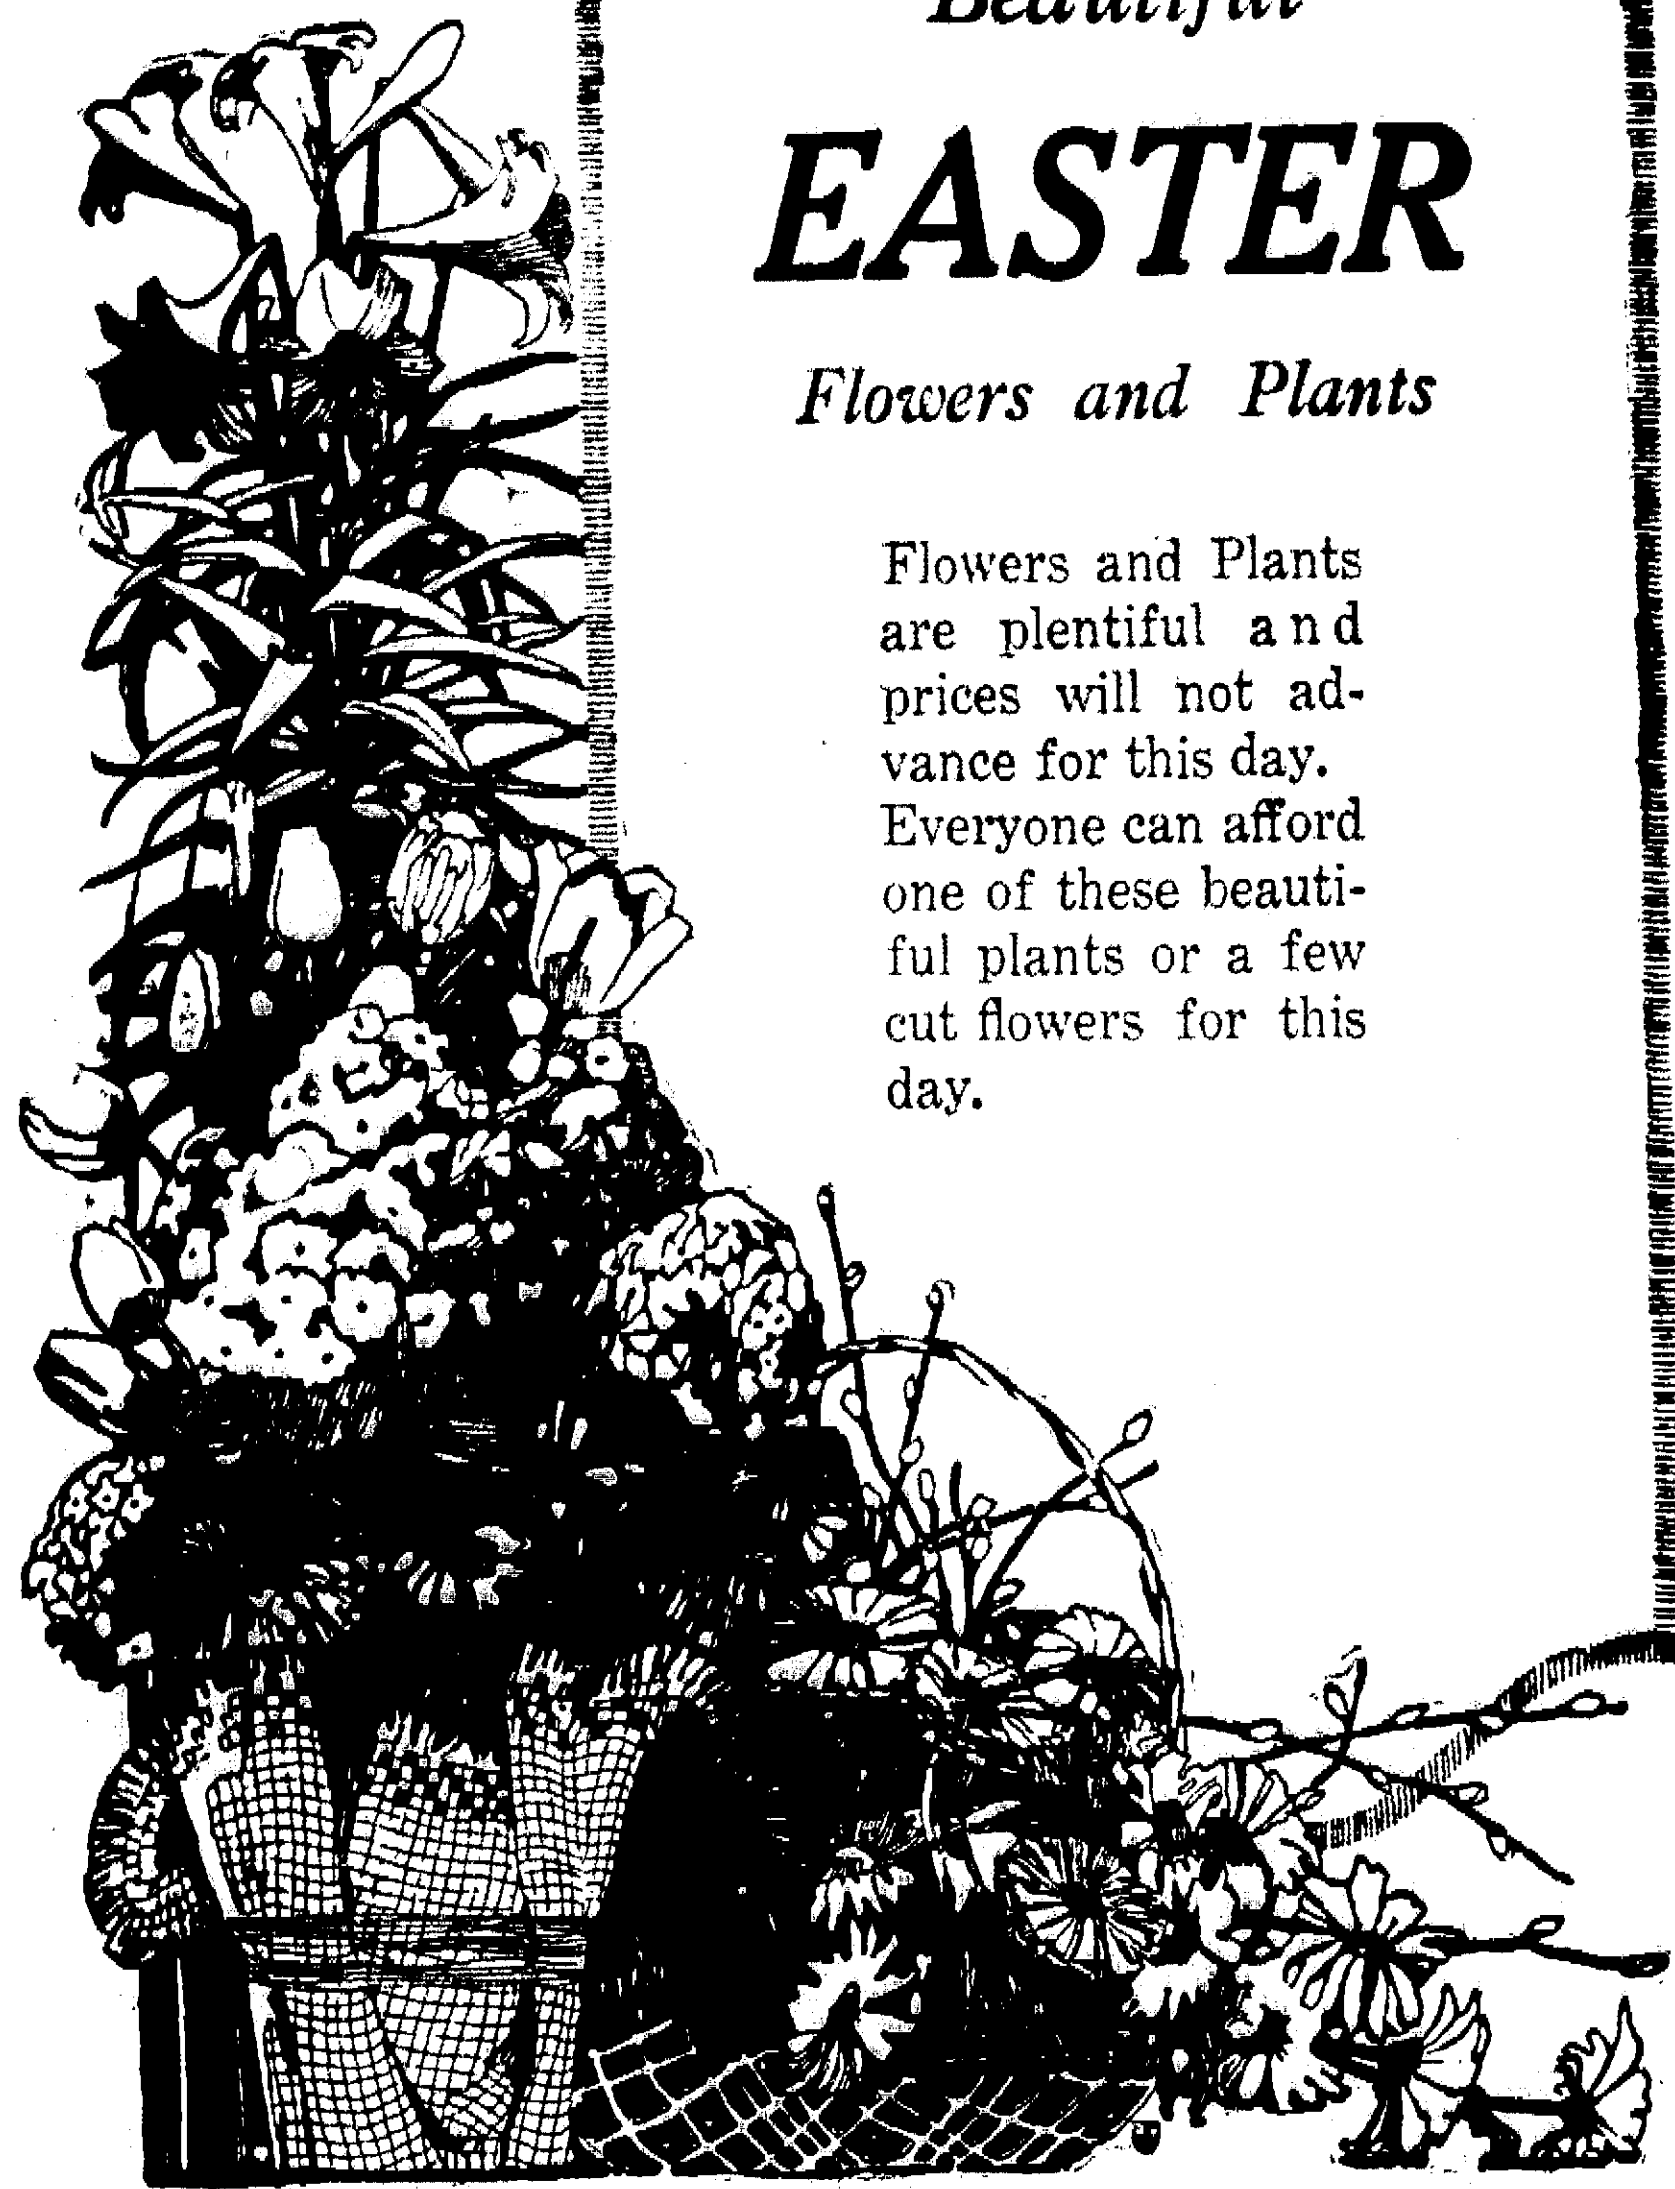

### How Test Was Made

Subject was blindfolded, and, in the presence of two responsible witnesses, was given one each of the four leading cigarettes to smoke. To clear the taste, coffee was served before each cigarette. The Princess was en-

tirely unaware of the identity of these cigarettes during test. After smoking the four cigarettes, the Princess was asked to designate by number her choice. Without hesitation she replied, "No. 3" . . . which was OLD GOLD.

## POSTAL MESSAGE

Marion Postoffice to be Represented at District Event  
Twenty-five or 30 mail employees from the Marion postoffice and their wives and friends will attend a meeting of postal employees of the Eighth Congressional district at the Mt. Gilard schoolhouse, May 19. The program will be arranged by the Mr. Gilard officials assisted by the Landon and Marengo offices. J. J. Laubbaum president of the organization and Homer Simpson, secretary, from the Galion office both planning to attend the meeting, which will be a social program. The district organization will hold a business meeting in the fall.

## NYE RESOLUTION TO BE "BURIED IN COMMITTEE"

Washington, April 5.—The Nye resolution, proposing a policy under which the United States would never use its armed forces to protect American investments in foreign lands, was debated for an hour by the Senate Foreign Relations Committee, with indications that it would be "buried in committee." The resolution, sponsored by Senator Nye, Republican of North Dakota, would place the Senate on record as opposing the use of force to protect either investments or property and announcing that all Americans, who invest in foreign lands, must subject themselves to local laws and local conditions.

## COURT TO HEAR REMUS ARGUMENT ON TUESDAY

Columbus, April 5.—The Ohio Supreme Court has set next Tuesday morning as the date for hearing of oral argument relative to the application for release, on bail, of George Remus, no confined in the State Hospital at Lima, Ohio. The application was presented to the court by Attorney Charles H. Elston of Cincinnati and B. C. Henderson of Lima counsel for Remus. They sought an earlier hearing but insisted on a full court hearing the argument.

## RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the laxative, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.—Adv.

## Plans For Elimination of Open Cistern Death-Traps Considered by City Board

Health Authorities Suggest Two Lines of Action for War on Menace; May Hold Property Owner Liable for Accidents

That a more drastic than has yet been taken may be decided upon to eliminate the open cistern death-trap, was intimated at the monthly meeting of the local Board of Health held in the office of the city health department yesterday afternoon when the matter was brought up for discussion after Sanitary Commissioner C. M. Tobin reported that he had discovered 14 cisterns with open tops in the city during the last two months. To hold the owner of the property liable in case of a drowning or to condemn the cistern and have it filled, were two lines of action discussed by the board. No definite action was taken, however. The most serious handicap experienced by officials in their war on the open cistern it was pointed out by Tobin, is the danger of having the ton removed by boys after the cistern had been closed by the officials. In a number of cases, he said, heavy concrete slabs have been pushed aside by boys and the cistern left open and in one case the heavy slab was broken into pieces by boys.

## Funds Lacking

The fact that there is no city fund out of which money can be taken to purchase cistern tops in cases where the owners of the property are negligent in the matter, was also pointed out by the commissioner as a handicap in the elimination of this menace.

## WARNER ON PROGRAM AT WILLIS SERVICE

Will Be One of Speakers at Memorial for Senator To Be Held in Columbus

Fred W. Warner, of Marion chairman of the Republican state central committee, is to be one of the principal speakers in a memorial service to be held in honor of Senator Frank B. Willis, Friday night, in the House of Representatives room at the statehouse. The service, to start at 8 p. m., is to be under auspices of the Women's Republican Club of Ohio.

Federal Judge Deussen W. Hough will speak on "Private Life of Senator Willis"; Ralph D. Cole, Findlay, will speak on "Public Life of Senator Willis"; Colonel Carmi A. Thompson, Cleveland, will speak on "My Friend," and C. D. Conover, Columbus, former speaker of the house of representatives will speak on "Reminiscences." Tributes will be paid by Warner, John G. Cooper, attorney, president of the Buckeye Republican Club and Mrs. Wilma Sinclair LeVan, Steubenville, Republican national committeewoman for Ohio. Mrs. Anna D. Romanus, president of the Women's Republican Club of Ohio, will conduct the program which will be opened with a prayer by Rev. J. B. Pius. Music will be furnished by the Buckeye Woman's Republican Glee Club of Columbus. The services will be open to the public.

## HEAD OF SUNDAY LEAGUE IS DEAD IN ENGLAND

London.—I need to have another look at the dull English Sunday and to have discovered the famous singer that the late Mr. Henry Mills, secretary of the National Sunday League, has died here. Mills found John McCormack, the world-famous tenor, when he was still regarded by entertainment managers as just the worth one dollar per night he was then receiving. He founded the National Sunday League forty years ago, providing cheap and popular light entertainment throughout England on Sunday evenings at a time when the English Sunday was proverbially dull.

## VILLAGE OF HARPSTER TO OBSERVE GOOD FRIDAY

## CITY HEALTH NURSE FILES MARCH REPORT

139 Visits Included in Month's Activities, Statement to Board Shows

One hundred and thirty-nine visits, including 32 surgical, 21 medical, 21 maternity, 21 infants, 11 orthopedic, 12 instructive, six investigation and nine visits in the interest of the dental clinic, were included in the activities of City Health Nurse, Miss Mahel Hastings, during March, according to a report submitted at the monthly meeting of the board of health yesterday afternoon.

Examination of 183 school children in the annual school inspection survey, and assistance in the examination of 164 first grade pupils, were also included in the month's work.

The report also told of the return from the Children's Hospital at Columbus of one child who had recovered sufficiently to be in school and of another taken to the office of Dr. Stenfeldt, orthopedic surgeon at Columbus where a special shoe was provided. Six patients were taken to the dental clinic and seven to the medical clinic, during the month.

The city nurse also reported assisting six half days at the local clinic and attending the Red Cross conference at Columbus one afternoon.

## ACOSTA M. E. MEMBERS ATTEND DE CLIFF SERVICES

Agosta, April 5—Palm Sunday was observed at the DeCliff Church Sunday afternoon. The meeting was in charge of Rev. Armistead and Rev. M. J. Plotts. The Agosta Church orchestra furnished the music. Those present from here were Mr. and Mrs. C. F. Bauer, Mr. and Mrs. E. R. Prentiss, Mr. and Mrs. J. L. Canouse, Mr. and Mrs. Samuel Seiler, Mrs. Clara Williams, Mrs. Kathryn Wilson, Mrs. C. S. ## CHURCHES PREPARE FOR EASTER RITES

Special Music and Sermons for Appropriate Observance Sunday

Continued From Page One.

are being arranged by young people of the churches. At the morning worship at the Prospect Street Church new members will be received, into the church, a baptismal service conducted, an Easter anthem sung by the choir, and an Easter message given by the pastor, Rev. Karl W. Patow.

Sunday night at the Prospect Street Church, Dr. L. A. Brumstead of Des Moines will give an illustrated lecture on the Passion Play of Oberammergau, Dr. Brumstead witnessed the Passion Play in 1910.

Federal services will be held morning and night at Emmanuel Lutheran Church. There will be a communion service and Easter music in the morning and presentation of an Easter cantata under direction of Ernst C. Carl, choir director, at night.

**Vesper Service**  
One of the unique Easter programs being arranged here will be the vesper service at 4:15 o'clock Sunday afternoon at First Reformed Church. At that time the choir will present a sacred cantata, "Morn of Victors" by H. H. Benson. New members will be received into the church and a baptismal service held in connection with the celebration of Holy Communion at the morning service. There will be no service at night.

The Sunday School hour at First Reformed Church will be featured by the wind-up of the building campaign and also the close of the attendance contest held in the form of a "trip around the world." Henry Wires will speak.

A pageant, "Victory Dawn" will be presented by the young people of the Church of the Brethren at the service at 7:30 o'clock Sunday night at the church while at the morning service the pastor, Rev. W. R. Shively, will preach on the subject, "What Will We Do with Christ?"

Sunday afternoon a children's Easter service will be held at St. Paul's Episcopal Church. All members of the church and church school have been invited to come, bringing their friends. Each member of the church school at this time will be presented one of the plants used in decorating the church for the morning Easter celebration. There will also be a communion service at 7 a. m. at St. Paul's.

**Communion Planned**  
A Communion service will be held Easter Sunday morning at St. Paul's Evangelical Lutheran Church, at which time several persons will be baptized and new members will be received into the church. In the afternoon a cantata, "The First Easter" will be given.

"Loyal to Him" is the title of a pageant to be presented at the service Sunday night at Central Christian Church. The morning service will be featured by an Easter sermon by the pastor, Rev. George E. Groves, and by the special Easter anthems by the choir. "Rally Day" will be observed at the Sunday School session, for which the following three aims have been outlined: an attendance of 530, a ministerial relief offering of \$100 and a successful "Decision Day."

Sunday's services at Epworth M. E. Church will include baptismal rites and reception of new members at the morning worship and special Easter music throughout the day.

All services at Wesley M. E. Church will be along the Easter theme and will include special music by the choir and a baptismal service in the morning. The Easter morning service at Greenwood Evangelical Church will be featured by a vocal number by Mrs. N. B. Weaver and by special anthems by the church choir.

Rev. John Kauffman, pastor, will give an Easter sermon.

At Calvary Church members of the church choir will have charge of a choral service Easter Sunday night at Calvary Evangelical Church while in the morning the regular hour of morning worship and Sunday School session will be combined into a special Easter service.

Easter Sunday will bring to a close special services at Trinity and Emmanuel Baptist and First United Brethren Churches. At Emmanuel Church the pastor, Rev. Earl L. Holladay, will preach in the morning on the subject, "Resurrection" and there will be special music. At the United Brethren Church, Evangelist Carl Vernon Ropes of Findlay will preach and a baptismal service and ceremony of reception of new members will be held.

Rev. Howard L. Gieseler, pastor, and Rev. James M. Fisher, pastor of the First Presbyterian Church, will speak at an Easter service for members of the Marion Commandery, No. 26, Knights Templar, at 5 o'clock Sunday afternoon at First Presbyterian Church.

The usual masses will be conducted Sunday at St. Mary's Catholic Church in accordance with the customary Easter celebration. At Forest Lawn Presbyterian Church, an Easter cantata will be presented by the choir under direction of W. B. Long, at an Easter service Sunday night.

## Notorious Old Prison is To Be Turned Into Museum

**LENINGRAD, SOVIET RUS-**  
**SIA, April 5**—The notorious 200-year old prison fortress of Shlisselburg, which in modern times had only Devil's Island as a rival for brutality within its walls, has been closed as a prison and will be opened to the public as a museum.

Built by Czar Peter the Great soon after he founded St. Petersburg as the capital of Russia, the fortress was virtually christened with the blood of the czar's own son and heir, Alexis Petrovich.

Not many decades later Catherine the Great locked up her rival, Princess Tarakanova, who like Anastasia of today, lived aboard and claimed to be the legitimate daughter of Peter the Great and heir to the throne.

Catherine sent her later, Prince Orlov, to Venice. He won the hand of Princess Tarakanova, brought her to this city where

Catherine promptly imprisoned her in Shlisselburg. The paintings of the princess, planning for help while the flooded Neva River and hordes of rats swarmed into her cell is famous throughout the world.

used by the czar's jailers. The dungeons where famous revolutionists were confined will be marked.

Another thing hard for us to understand is how some of the members of the upper house of congress have so long been able to escape the clutches of the sidestown management.

It develops that the fifteen-year-old Mayfield Helms girl, whose body was found in a swamp after a search of two months, was left there alive by a former boy who hit her with his car. Bolling alive in oil is just a bit too good a punishment for one capable of an act so fiendish.

The campaign of foreign brewers to popularize beer in Spain has been defeated by the Spanish wine makers, who arranged for the serving of a fine free lunch with every glass of wine, and thus have another vindication of the long-recognized national pride of Spain!

Leon Trotsky is reported to be dying from a gun-shot wound inflicted by a young red assassin. After having been killed sixteen or seventeen times, the former soviet war chief shouldn't be troubled by a mere wound.

Chicagoans are now being called to their front doors to face sawed-off shotguns in the hands of thugs and have their homes looted. We take it that such happenings may be accepted as added evidences of the overwhelming victory of Mayor Bill Hale Thompson over the myrmidons of King George.

A well-known oil company of the Standard group has just declared a stock dividend of 100 per cent, which tends to explain why it takes real money to make the machine, as well as the old mare, go.

For some reason we are unable to picture anybody being trampled in the rush to go to work should Uncle Sam decide to pay a six-dollar dote to the unemployed as demanded in the platform of that joint convention held in Washington by Weary Willies and the Knights of Rest.

The office of the German-American Citizens' league, affiliated with the Deenon forces up in Chicago, has been bombed and wrecked. The strenuousness of political life up in the Windy City is living fully up to the advance notices.

A Kansas City policeman, who had been demoted five times for brutality, was killed a day or two ago by his nineteen-year-old paramour. It can hardly be charged that the Kansas City police authorities are flunking in their selection of timber for patrolmen.

President Joseph Z. Klonha, of the village of Cicero, speaking of Tuesday's battle of the ballots in which fifteen Democratic and three Republican workers were slugged, beaten or stabbed despite the fact that forty highway police, twenty-five deputy sheriffs and forty-four constables were added to the regular Cicero force of fifty-six policemen to preserve order, says: "It was a very peaceful election." As Mr. Einstein, or whoever it was who said it, remarked: "Everything is relative."

## Passing of Chauncey Depew.

The death of Chauncey Mitchell Depew, this morning at his home in New York City, has removed a notable figure in American life, notable not only for the diversity of his accomplishments, but notable also for activities which extended for a score of years beyond man's allotted time. Had he lived until the 23d of this month he would have attained the ninety-fourth anniversary of his birth, and yet he was chairman of the board of directors of the New York Central railroad when death came to him today.

Chauncey Depew, lawyer, orator, politician, railroadier and fur-famed raconteur, was born at Peekskill, New York, in 1834. He graduated from Yale in 1856, was a member of the New York state assembly in 1861-62, was secretary of state for New York 1863-65, and in 1869 became counsel for the New York Central railroad, of which he was president from 1885 to 1899, inclusive. He was an unsuccessful candidate for the Republican nomination for the presidency in 1888 and served his state as a member of the upper house of congress for two terms, 1899-1911.

Mr. Depew had been failing for some time under the weight of his extreme years, but apprehension concerning his health was not felt until he contracted a cold in the South which caused his return to the North. When it became known, as it did Wednesday, that his cold had developed into bronchial pneumonia, the gravest fears were entertained that he would not recover, but the final summons was not expected to come so quickly.

Mr. Depew has often been referred to as the "Grand Old Man of the Republican Party," but he was more than that; he was an able man, and so recognized, regardless of party lines, and at all times a splendid, high-class gentleman.

## A Splendid Air Record.

Figures submitted by the Aeronautical chamber of commerce to William P. McCracken, assistant secretary of commerce for aviation go to show that flying in government machines over regular routes is just about as safe as any other form of transportation. In the government air mail service there was but one fatality to 1,413,320 pilot-passenger miles and but one fatality to 1,413,320 miles in the air transport service. These figures, important at first glance, become still more impressive when it is considered that these services carry on their operations both day and night and in all kinds of weather, over mountains and forests, deserts and cities, the courses followed on fixed schedules extending from the Atlantic to the Pacific. In addition to the casualties which occurred in the air mail and air transport services under government regulation, twenty-six fatalities occurred in transoceanic flights, racing demonstrations and test flying. Twenty-one students lost their lives in attempting to learn the art of aviation and the remaining 110 fatalities were attributed to aerial service operations.

Summarizing the figure given out by the department of commerce, we glean two outstanding facts. One is that of a total of 164 fatalities, 131 or eighty per cent, resulted from accidents to unlicensed machines, and the other is that, of a total of 681 licensed machines, 665 or 97 3/4 per cent, were operated throughout the year, flying millions of miles without a fatality.

It may be well to say here that the Aeronautical chamber of commerce points out that, as the air commerce act was not passed till 1926, the aeronautical branch of the department of commerce was not sufficiently well organized to inspect all the machines and examine all the pilots engaged in interstate air commerce and that, as a result, a large number of scattered unlicensed aerial service operators continued in business throughout 1927. Many unlicensed operators also were engaged in intrastate flying, and these were not subject to federal inspection and licensing.

"We now venture the prediction," the chamber of commerce says in conclusion, "that inside of five years public sentiment will demand that all aircraft and all pilots be licensed, whether in interstate or intrastate operations, with the result that all operators in order to hold patronage will choose to secure licenses for aircraft and pilots as a first essential."

The air flying safety record, we are frank to say, is much better than we imagined, and this is especially true of the air mail and transport services under government control. We believe that our misconception of the real situation was due to an error very common to humanity; that of perceiving ourselves to be influenced by the daily recurrence of stories of aerial accidents, forgetting, although there is little excuse for so doing, that it is the exceptional which makes the news in the realm of aviation as in everything else, and that while there may be an accident here and an accident there almost daily, there are hundreds upon hundreds—yes, thousands—of machines which are operated daily without mishap of any kind, as the figures regarding the two services herein considered make plain.

But isn't there grave danger that our good friend, Senator Fess, may inject something on the subject of drafting into that keynote?

MacMillan reports by radio that terrific Arctic storms are sweeping Labrador harbor, where the Bowdoin is anchored. The scientist who predicted maximum storms as a result of the maximum of sunspots either knew what he was talking about or is the king of all guessers.

A University of Aberdeen lecturer holds that beekeepers live longer than any other class of people. Take a little honey for what's ailing you.

Eight golden wedding anniversaries were celebrated the same day over in Neuve-sur-Marangon, France, recently, the average age of the sixteen principals being seventy-six years. And to think that Ponce de Leon chased away over here to find the fountain of youth!

Since the Pennsylvania Railroad system has announced it is ready to flunk up with the proposed new four-day transatlantic line from Montauk Point to Europe and voiced its readiness to become financially interested in the new shipping project, there is no getting away from the fact that a four-day service across the Atlantic "listens" a lot more like a probability than it did heretofore.

**An Awful Fate.**  
With over 400 convicts locked up in the steel cages in her hold—over 400 of the most vicious and desperate criminals convicted during the past twelve months in the courts of France—the prison ship, La Martinique, is enroute from La Rochelle to Cayenne in French Guiana, where the most of them will probably spend the remainder of their lives.

This same ship carries a similar cargo yearly to the prison colony in New Guinea, life in which, it reports is worthy of credence, is worse than death. In fact, many prisoners are said to voice preference for the knife of the guillotine, that the misery of colony life may be escaped.

Possibly the horrors of life in the colony have been exaggerated, but it is a significant fact that La Martinique is the present-day representative of the line of prison ships which have been carrying cargoes of criminals to the colony for centuries, and we have never come upon anything in type to indicate that the colony has been overcrowded.

It is an awful fate which faces this cargo of French criminals, but they are the perpetrators of awful crimes, and in all probability this punishment has been meted out to them that their punishments may fit their crimes. It may be that such have been their crimes that they deserve a punishment worse than death.

In any event, the French people have the satisfaction of knowing that those who make the voyage in the La Martinique will not be freed within a few months or a few years by a parole board to prey upon them once more.

## HOW MANY MORE LIVES HAS THE CAT GOT?

## Interest Adds to Life's Span.

BY DR. ROYAL S. COPELAND, M. D.

Emerson said: "Enthusiasm shortens life, and bereaves the day of its light."

Some of my young readers may not quite grasp this golden rule. I have no one of them who will suffer from that mental weakness and indifference that comes to people who have overplayed the game of life.

No punishment can quite equal the deadly dullness of ennui. There must be enthusiasm, the opposite of ennui, or all the sparkle of life is gone. It has become flat, stale and unprofitable.

I truly believe that to be constantly bored and depressed will actually reduce the period of your life. Each day will seem long because you are so weary of existence, but the actual duration of life will be decreased. Emerson is right, as I view it, in saying that ennui shortens life.

Enthusiasm is like sunlight. It illuminates and brightens your surroundings and everything you do. It puts a golden glow upon everything within your field of vision.

Ennui is the opposite of enthusiasm. It robs the day of its brightness. As Emerson says, in his quiet language, ennui "bereaves the day of its light."

The only dread I have of the present age is that our young people, sophisticated as they are, may become the victims of ennui. Instead of being youthful and enthusiastic, overflowing with good nature and joyousness, they might become bored and weary and indifferent.

That would indeed be a pity. To be bored will slow the heart's action, bid digestion, and impair the health. We need to have the stimulation of human interest and eagerness. They set the heart to pounding and exercise every vital function.

There is no doubt that length of life is associated with cheerfulness and good nature. You will make no mistake in the long run to retain and practice all the youthful impulses.

Let the glow of your nature drive away all the gloom of your surroundings. Live all the time in the brightness of happiness. By doing so, you will live longer and be more useful while you live.

There is another side to the problem. When you are bored and grouchy, the rest of the family will be upset. One such person in a household will put all the rest on edge.

There can be no health and vigor in a family if one of its members suffers from chronic ennui. For the sake of your relatives and associates, I beg of you to throw off this attitude of mind.

## ANSWERS TO HEALTH QUERIES.

C. O. D. Q.—What are some of the symptoms of gall bladder trouble?

2.—Can it be entirely removed? How?

A.—Among the symptoms of gall bladder trouble are: Malaise, headache, flatulence, coated tongue, loss of appetite, vomiting and pain extending to the right shoulder.

2.—Yes. Special treatment is necessary. For particulars send a self-addressed, stamped envelope and repeat your question.

H. P. F. Q.—Would dark circles and bagginess under the eyes indicate intestinal worms?

2.—What should a girl aged fourteen, five feet one inch tall weigh?

A.—Yes. Send self-addressed, stamped envelope for further particulars and repeat your question.

2.—She should weigh about 105 pounds.

A. R. Q.—What should a girl of seventeen, five feet, 2 1/2 inches tall weigh?

2.—Would adonous cause unpleasant breath and enlarged adenoids dangerous?

A.—She should weigh about 117 pounds.

2.—They might. Why not have your doctor determine the treatment you need after a careful examination. While they are not dangerous they are up to cause deafness, improper breathing and other conditions affecting the health in general.—Copyright, 1928, Newspaper Feature Service, Inc.

Dr. Copeland will answer the readers of this paper questions on medical, hygienic and sanitation subjects that are of general interest. Where the subject of a letter is such that it can not be published in this column, Dr. Copeland will, upon the question is a proper one, write you personally if a self-addressed, stamped envelope is enclosed. Address all inquiries to Dr. Royal S. Copeland, in care of this office.

## Vagrant Verse.

## A SONG OF HORIZONS

O push your tent to east or west

To north or south away

My eyelids are as weary as

Dark night or shining day

You toddle from your woe to woe

And break their circle wide

You walk out of your woe to woe

In day of stress and storm

You break the circle of your woe

And take a stranger wife

You distance seas and shores

To wider, wider life

But there am I about you

Serene unbroken far

Only your dreams shall part

From their wanderings

## Editorial Opinion.

## OHIO'S BUNGLED PRIMARY LAW.

Although the secretary of state has ruled officially on the question raised under the Ohio law governing primary elections by the death of Senator Willis, he does not reflect entirely the complication that confronts the Republican electorate of the state. He holds that the ballots for April 21 must go to voters in the form in which they were certified by his office. Even those not yet printed can not be changed and, of course, those that have been printed must stand.

Senator Willis is dead, but his name will appear on the preferential ballots. The delegates who have pledged themselves to him as first choice must be voted for on that basis. Those delegates who may be elected as Willis delegates can not be expected, now to vote for him at Kansas City, but no matter what shifts there may be in the presidential kaleidoscope between now and June 12, they will be bound to vote once, at least, for the candidates to whom they may be pledged as a second choice.

The Enquirer repeatedly has criticized the primary election law of Ohio. It has advocated changes that would have made it possible for the electorate of either political party ever to find itself in such a dilemma as has been created by the death of Senator Willis. It has advocated a change to a convention system in which convention delegates would be elected by a simple primary vote devoid of all the red tape that binds the present primary system with immobility. In the solemn work of expressing presidential preferences on April 21, Ohio Republicans will find in their hands, ballots bearing the name of a dead man. This situation can not be changed. Under a convention system, based on a mobile primary for choosing delegates, such a complication, even if it occurred on the eve of convention, could be remedied on the convention floor.

Something must be done in this matter. The situation today in Ohio, as to the Republican part of the presidential primary, not merely is serious—it is ridiculous in the extreme. Under the ruling of the attorney general the electorate is obliged to make the best it can of the complicated situation. Those Republicans who had intended to vote for Senator Willis must mark their second choices, and it will be up to the respective county boards of election to figure out how the states will split up at Kansas City. After the elected delegates get it will be left up to them to figure out how long it will take to relieve them of their promiscuous secondary-choice pledges before the delegation can settle down to an effective representation of the wishes of the Republican electorate of the state.

The seriousness of the situation is indicated by the called meeting of Willis faction leaders for Wednesday of this week. No matter what they may consider best to be done, they are irrevocably bound by the ruling of the secretary of state and by the primary election law of Ohio.

It is plain to every intelligent citizen that the first duty of the next Ohio legislature will be to change the primary election system into a more workable one. The present law never has produced the results that were promised for it. It has failed utterly to put the best men into office. Its workings, although it was guaranteed by its authors to result in great reforms in many elections, to end the use of money and to bring able and honest men into office, has failed lamentably in all of these things. It has resulted in deterioration in the senate and house of representatives; it has not prevented the use of money to get nominations and to secure elections, as witnessed by the recent developments in the United States senate, and it has not given us better men for any other public officials. The whole primary system ought to be swept out of existence; certainly it should be modified and regenerated. It has been more responsible for the listlessness of the general voter which has had expression in almost one-half of the electorate staying away from the polls, not only in primary contests, but in the general elections.—Cincinnati Enquirer, April 2.

## Dinner Stories.

"Your wife is looking happier than I've seen her looking for some time."

"Yes, she's not something to worry about again."

An English laborer's wife was having her baby christened and gave the name Acts.

The astonished vicar said: "Do you mean that I am to christen this child 'Acts'?"

"Well, yes," the mother replied, "I've got Matthew, Mark, Luke and John. Why not give Acts a turn?"

Wife, at table—"Mother sent me a recipe for some wonderful floor polish, but I've mist it."

Husband, tasting his soup suspiciously—"Are you sure you have mistaid it, my dear?"

Rory MacSweeney, the village blacksmith, decided that he ought to regulate his diet, and he called upon the doctor to have advice on the subject.

The medical man advised him to eschew all spirits, to give up portridge and abstain from haggis for at least three months. He then prescribed a special diet.

Rory rose and prepared to take his leave when the doctor remarked that he was in the way of charging for his advice and that MacSweeney owed him three shillings.

"Na, na," replied Rory, "I'm no doctor at all. I'm no taking your advice."

## Space Rockets.

BY GARRETT P. SERVISS.

"I would like to read your opinion of the projects to send rockets to the moon, or to Venus. Our present explosives, in quantities weighing but a fraction of the weight of the projectile, cause a reaction powerful enough to drive the rocket so far."—C. A. Peters' New York.

You have upon what is probably the greatest obstacle to success in the various schemes for sending rockets to the very roof of the earth's atmosphere and possibly, of driving them away from the earth entirely on a flight across empty space to the moon, or even beyond it.

From the earth to the moon the mean distance is less than 240,000 miles. From the earth to Venus, when that planet is nearest to us, the distance is about 25,000,000 miles, or a hundred times as far as to the moon.

It is not with a rocket as it is with a projectile shot with the force of a single explosion from a gun. The rocket carries within itself a continuing driving force as long as its charge is not all burnt up. But the projectile receives no push after it leaves the muzzle, and can go on only as long as the original impulse survives.

The rocket scheme involves the renewal of the driving force by means of a succession of charges arranged to explode at proper intervals to keep the rocket in motion. For a projectile to be shot to the moon it would be necessary to start it with enough initial velocity to free it from the control of the earth's gravitation. What that velocity is can be calculated from well-known data—it amounts in round numbers to seven numbers to seven miles per second. Starting with that velocity, a projectile could go from the earth to the moon with the expense only of the force that started it.

But the rocket would develop new supplies of force during its flight, so that it would not need to start with anything like so high a velocity on leaving.

You could not jump from the earth to the moon at a single leap, even if you were a greater athlete than any demigod. But if there were a series of platforms reaching from the earth to the moon you could get there by a succession of jumps.

In Jules Verne's famous story he sent his imaginary adventurers to the moon in a projectile shot from a 900-foot cannon. He had to make behind a play of words the crushing force that an initial velocity of seven miles per second would have brought upon them. Curiously enough, when his projectile got stuck at a neutral point not far from its destination, he called in the principle of the rocket to unstall it, though he had not thought of employing the same principle to carry the projectile away from the earth with comparative safety and ease for the voyagers.

Many have difficulty in seeing that a rocket could travel even in open space beyond the atmosphere, where there would be "nothing to push against." It is the principle of reaction that comes into play. The force of an explosion is exerted in all directions. In the case of a rocket a large part of the force is effectively confined to driving the rocket in the direction of its head.

The idea, then, of driving a rocket from the earth to the moon is not mere moonshine of the imagination, but it is a far cry from the principle of the application. How to obtain sufficient explosive power looked up in exceedingly small compass and how to make the successive charges explode without interference with one another are fundamental questions to be practically solved before even an attempt could be made at so sensational a flight. But some time we may find our dream of power from atomic sources realized, and then—

## New York Day by Day.

BY O. O. MINTYRE.

New York, April 5.—To the new generation the passing of Jack Dunston some weeks ago meant little. But to the vanishing old New York it revived memories of days and nights long gone. There was never a place like Jack's restaurant. For years the key was never turned in the front door lock.

It offered no music, no fancy service, no plain palatable food such as eggs and bacon, T-bone steaks with potatoes in a jacket and hamburger and onions. After midnight it became the hang-out for drunks as well as leaders in all walks of life.

If you got rowdy at Jack's you found yourself on your ear in the middle of Sixth avenue car tracks. The waiters were especially trained and became known as "the flying wedge." At the battle cry they seemed to drop from chandeliers and spring from everywhere in mass formation to do their duty.

Its Battling Nelson grill had someone taking the count nightly. Here would be found Kippa Igoo and his cigar box ukulele, Frank Wadley, who named the district "The Roaring Forties" and it was here Ted, the carolite, laughed himself out of a thousand tears to Great Neck.

Jack's was a jostling, hard-boiled marine place. Many sleepers would be awakened to receive the other fellow's check. There was the old blind flower seller who could "smoke a sucker." Judges and great statesmen came as did such men about town as Freddie Gerhard and flowering wits as Wilson Miner.

It was no place to flirt with the other fellow's girl. One blink and unless you dodged something handy you would be carried out (up) while birdies sang—tweet! tweet! Jack's was the hackmen's paradise. They began lining up

## Says Sinclair Has Spent Fortune in Attempt To Beat Charge of Bribery

Magistrate Convinced He Is Being "Persecuted" by Government. Has Been Represented by Highly-Skilled Attorneys. Each of Whom Has Been Well Paid

Marion, April 5—What price administration has cost him some exceedingly important money during the past five years.

Since the winter of 1933, when the Senate first thrust an imputative move into the ways and means by which he acquired a lease on the Teapot Dome Naval Oil Reserve, up to the present moment when he is about to stand trial for criminal conspiracy against the government in connection therewith, Sinclair has been divorced from a steady stream of money that would make a number of readers independently wealthy for life.

The oil man is convinced he is being "persecuted." He thinks that federal agents have been constantly on his trail, watching his every movement since 1923. Well, he might if his friends are to be believed. They estimate that five years ago his fortune was in excess of a hundred million dollars—some placed it as high as \$120,000,000.

Spends Small Fortune  
Today, the estimate ranges from a maximum of \$75,000,000 to a minimum of \$50,000,000. The balance, it is claimed, has gone in an effort to beat the charge that he bribed former Secretary of Interior Albert B. Fall to give him a fraudulent lease on Teapot Dome, and in business reverses incident thereto.

Figures of this nature are almost impossible of verification, but it is known that Sinclair lost quite a few millions alone when the Supreme

## FOREMOST EDUCATORS TO ATTEND MEET

Major J.L. Griffith, Dr. Glenn Frank, Dr. W.O. Thompson, Dr. George F. Arps, Dr. Clarence C. Little, Dr. Alfred Adler

Eighty of the foremost educational world will be mobilized in Columbus April 13, 14, 15 for the eighth annual Ohio State Educational Conference at Ohio State University.

Based around the keynote of "Teaching as a Fine Art," the conference will deal with practical educational problems. It will be divided into three general sessions and the meeting of 32 special groups, each dealing with a particular phase of education.

Six names of the "heavy artillery" are shown above among them the presidents of three universities. The six include Presidents Glenn Frank and Clarence C. Little, of the universities of Wisconsin and Michigan, respectively; President Emeritus W. O. Thompson, of Ohio State; Dr. Alfred Adler, noted Vienna psychologist; Major John B. Griffith, commissioner of the Western Conference; and Dean

chief lieutenant, which reads: "This is no hotel lobby. Do not spit on the floor."

## Steel ships are built by men's muscles

531 men in the Sun Shipyards relieve muscle lameness this way

It's a REAL man's job—the work of the men on the ways in the big shipyards. It takes all the strength—the skill—the courage a man's got.

Big wages—adventure—the spice of danger! Yes, and stiff backs—occasional wrenches, sprains, bruises—and rheumatism when you've been riding the girders or running the big traveling cranes out in a drizzling rain all day.

How do men who do this heavy work relieve the effects of strain and exposure? How do they treat the occasional minor injuries that are bound to occur?

We made a canvass among the workers in the yards of the Sun Shipbuilding Company of Chester, Pa., one of the largest shipbuilding concerns in this country.

531 told us, "We use Sloan's."

One of the men in the Sun Shipyards who told us that they use Sloan's to relieve strains, colds, rheumatism

Miners, steel workers, policemen, firemen, stevedores, farmers—all who do hard muscular work know Sloan's. It is the liniment that always kills the aches that come from exposure to cold and wet, from heavy lifting—from strains, sprains and wrenched muscles.

Workers in every trade praise Sloan's

Read what this garage worker writes: "One night when I came in from my work my left leg pained me and the next morning it was swollen up and worried me when walking. I applied Sloan's Liniment to it that night and the pain nearly all left, but the swelling was still there so I applied it again and the next day the swelling was all gone. For aches and pains I find nothing to beat Sloan's Liniment. I keep a bottle in the garage where I work."

T. E. Jacob, 1213 Reynold St., Shreveport, La.

Sloan's Liniment is pleasant and clean to use. You don't even have to rub it in. Just pat it on gently. At once you feel a tide of fresh, healing blood rush to the aching spot. Sloan's heads by helping nature. It isn't a drug—it is absolutely safe and cannot harm anyone. Keep a bottle always in the house. All druggists—35 cents. Use it for:

Rheumatism Lameness  
Sciatica Stiff neck  
Lumbago Colds and  
Neuralgia congestions  
Sprains and bruises

The company doctor of one of the biggest industries of the country says of Sloan's: "People whose work exposes them to strain or to damp and cold usually suffer from a good deal of muscular nervousness. We find that Sloan's gives them quick, positive relief."

TRIANGLE  
TIRES  
MALO BROS.Doctor Found What is Best  
for Thin, Constipated People

As a family doctor at Monticello, Illinois, the whole human body, not any small part of it, was Dr. Caldwell's practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headache, biliousness—and all of them required first a thorough evacuation. They were constipated.

In the course of his 47 years' practice (he was graduated from Rush Medical College back in 1875), he found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year his prescription was first placed on the market.

The preparation immediately had as great a success in the drug stores as it previously had in his private practice. Now, the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it. Millions of bottles of Dr. Caldwell's Syrup Pepsin are being used a year.

Its great success is based on merit, on repeated buying, on one satisfied user telling another. There are thousands of homes in this country that are never without a bottle of Dr. Caldwell's Syrup Pepsin, and we have gotten

AT AGE 83

Meditations  
OF A  
Married  
Woman

BY HELEN HOWLAND

**SOME** women are born for unhappiness; some make themselves unhappy; and some fall in love with a philanderer—and have unhappiness in large chunks thrust upon them. You know the type!

The average man's love is apt to be sketchy and impressionistic, and to lead lightly from woman to woman; but once he has been caught, harnessed and led up the old path to the altar, he is likely to trot along faithfully, like good old Dobbin, for the rest of his life.

But the philanderer will never STAY PUT! No matter how many times he may go through the wedding ceremony, he is never more than one-half of one per cent married. He can hardly wait to kiss the bride, before he is off flagging one of the bridesmaids.

Why or how he ever gets as far as the altar when he never means to go beyond the second kiss, Heaven only knows. Marriage is just an accident or an accident in his life, and it never "takes!"

Yet no matter how many women he may have fooled, he can always persuade the next woman that "THIS time it is the real thing!" So substance is woman's optimism.

All the girls whose hearts he has used for a foot-hill, all the women he has "loved" and succeeded in "loving," only make him seem more alluring.

But the philanderer, like Pan, was born without a soul and can never be conquered or tamed. All the bonds of love and law won't TIE him. Devotion soon bores him, tears roll right off of him; and even a string around his finger won't make him remember that he's married five minutes after he leaves the house. He is like a "slicker"—nothing penetrates, sinks in or makes an impression on him.

Give the average man enough rope, and he'll soon get so tangled up that he'll come trotting back and ask you to put him on a four-foot leash. But the philanderer will merely use the rope to lasso another woman. His heart is like a barber shop in which the cry is always "Next!"

Life, to him, is just one adventure after another, one experiment after another—one woman after another!

When he is ninety he will still be sticking the few remaining hairs across his bald spot, sticking a rose in his coat, and tottering out in search of a passing flapper.

For his is the love that knows no code, no rules, and no age-limit; the love that never dies—pure, undiluted SELF-LOVE. The only thing he sees when he looks in a woman's eyes, is his own fascinating reflection! Copyright 1928 King Features Syndicate, Inc.

## GUILD MEETS

**Members of St. Paul's Episcopal Group Are Entertained**

Misses Frances Irvin and Grace Cooper and Mrs. A. W. Lare were hostesses to members of St. Rita Guild, St. Paul's Episcopal Church, last night at Miss Irvin's home, 615 Delaware-av. Eighteen members responded to roll call.

The second chapter of the study book, "Creative Forces in Japan," was given by Mrs. T. H. Sutherland, and a talk on Japan was given by Mrs. Fred Harbman. Mr. Mrs. Lare had charge of the devotional service.

A feature of the entertainment were the two vocal selections, "Sleepy Hollow Tune" and "By the Waters of Minnetonka," sung by Miss Irvin and a piano solo, "Waltz Medley," by Miss Cooper. A lovely luncheon, with a decorative note suggestive of the season, was served by the hostesses. The next regular meeting will be held Wednesday, May 2.

**DAUGHTERS OF VETERANS TRANSFER ONE MEMBER**

Mrs. Mary Rose was granted a transfer to the Richmond tent at the meeting of members of Harriet Beecher Stowe Tent No. 48, Daughters of Union Veterans, last night at I. O. O. F. Hall, N. Main-st. Local Young People Will  
Install Y. P. B. at Bucyrus

Plans were made for installing a Women's Christian Temperance Union Young People's Branch at Bucyrus at the meeting of members of the local branch last night at the Y. M. C. A. Building. The Marion group will go to Bucyrus for the purpose of installing the new chapter Thursday, April 19. Arrangements were also made for

presenting a pageant, "The Spirit of Frances Willard," April 27, at the County W. C. T. U. Institute at First United Brethren Church. Paul Probst, Robert Roberts, Miss Harriet Martin and Alma McDaniel were appointed a committee to complete plans for the pageant. Announcement of the Y. P. B. part in the Institute program was made by Mrs. E. J. Hollandhead, County Y. P. B. secretary. Miss Ethel Gray was enrolled as a new member.

Misses Dorothy Newby, Ruth Croman and Janice Zachman were appointed a committee to arrange for presenting members of the Harding Guard colored Easter eggs the Saturday preceding Easter, and for sending Easter greetings to the Y. P. B. adopted soldier, Louis Garcia of the National Military Home Dayton.

Barred Walker, president, was in charge of the business session, and Lloyd Jackson superintendent of Americanization, presided for the Americanization program. The following papers were given: "The True Americanization Spirit," Miss Nyla Miller; "Americanization, Everybody's Problem," Miss Clara Danner; "America, God's Country," Miss Marjorie Barry; "The Immigrants' Contribution," Robert Roberts; and "The American's Creed," Miss Alma McDaniel.

Mrs. John Newby, city Y. P. B. chairman, gave a talk on "Americanization." A "peace" meeting will be held in two weeks at the Y. M. C. A. Building.

**Powder Means Much to Me**  
By Edna Wallace Hopper  
The average woman considers the actress hopelessly ahead of her in the art of enhancing natural beauty.

The reason for this advantage is that the actress makes a business of attracting and she must "know how." It is her bread and butter.

In the matter of powder, for instance, my forty-odd years on the stage have made me almost unbelievably exacting. I never considered the cost of my powder so long as it pleased me.

After years of searching I found in France the powder that now adds the last touch to my careful toilette. It satisfies me because it has the one quality I have found in no other powder. That is, it blends so smoothly with the texture of my skin that my face never looks "made up" when I am offstage.

Because it looks such natural bloom I call it my Youth Powder. In the immense quantities now produced I am able to offer it to women at a low price.

If your skin requires a clinging powder I advise you with my Youth Powder in the Heavy Type. It also can be had in the Light Type. Both have the same delicate elusive fragrance.

Get either type in Flesh, Brunette or White at any toilet counter.—Adv.

Good News  
For Girls

And Women With  
Complexion Worries

One Week's Use of Plain Old-Fashioned Buttermilk Makes Amazing Improvement.

It's a strange thing that now after years of being almost forgotten the simple old-fashioned recipe of buttermilk for beautifying the skin is again being turned to by the clever modern woman.

But it is easy to understand when you see the almost unbelievable improvement the use of buttermilk will make in your own skin and the short time it takes to smooth out little harsh wrinkles, reduce enlarged pores and give your complexion a lustrous youthful firm look.

For convenience's sake Science has perfected a way of combining fresh concentrated buttermilk with a perfect cream which you can now get at Henney & Cooper's or any drug store under the name of Howard's Buttermilk Cream. Just one application of Howard's Buttermilk Cream will make your skin look better than it has for months—or your money will be refunded.—Adv.

A Story of the California Forests  
BY PETER B. KYNE

(Copyright, 1926, Peter B. Kyne by arrangement with King Features Syndicate, Inc.)

The Action So Far  
Garland, a young ranger assigned to the San Dimas Forest Reserve, loses his horse to Monica Dille, who acts as a guide to the forest. He is rescued by a friend of Monica's, an escaped convict named Mason. He agrees to help her and thereby discovers that she is a woman of great courage and determination. He also learns that she is a woman of great courage and determination. He also learns that she is a woman of great courage and determination.

CHAPTER 15  
Honey Valley was a beautiful spot. It was a valley of rolling hills, with a few scattered houses and a small church. It was a place of peace and quiet, and it was a place where people came to find solace and comfort.

"Who is She?"

You simply can't keep people from wanting to know who you are when you're as sparklingly fresh and crisp as Monica Dille. She's a beautiful New York City girl who lives at 752 Carroll Street, Brooklyn. Everyone knows her lovely figure, and her marvellously clear, rose-tinted complexion. The women marvel most at the softness and lustre of her hair.

Good News for Expectant Mothers

Doctor's Discovery Relieves Much Unnecessary Suffering

IT has been proven conclusively that much of the suffering experienced during pregnancy, as well as at childbirth, is entirely unnecessary.

Dr. Kolmer's discovery, that the mother's body is naturally inclined to expand more easily, enables her to expand more easily, without any of the usual discomforts and pains.

Purposely I kept my eyes averted from her face as I spoke, but I heard a little involuntary gasp as I spoke of the shock of the revelation. She had a long training in moral endurance, and bore everything she saw.

Madge Relates Incident

THE fingers of Princess Olina's lovely hands were clenched into her palms, and her eyes held a lively look of terror as she spoke of the mysterious "something" which was troubling her. I did not wish to force her confidence, but my conscience forbade me to finish our interview without another and more definite offer to help her. When she made her first appeal to me to listen to her story, saying that she "must tell somebody," I was very sure that she was actuated by terror of the men in the shack. But later she had said she would not "bother" me now with the thing that was frightening her. I wondered if she had imagined some lack of sympathy on my part and opened my lips upon a plea to tell me what was troubling her. But she forestalled me with a question which evidently had been in the back of her mind all through our interview.

## ON THE Streets of Marion WITH THE STAR STAFF

During Easter, an occasion which is generally observed with a religious observance, next Sunday is the day of the average run of citizens do not regard tax evasion as a serious offense and if they own personal property which can be kept under cover they are inclined to follow that plan. With listing day coming this year on Easter, a day which should serve to inspire honesty, there may be a substantial increase in returns. Final reports from the auditor's office will show.

In former years, personal property was listed by regularly elected assessors who called at all homes and business places. Now the listing is left largely up to the citizens personally.

Immediately after the new plan went into effect, about 10 years ago, the total of personal property returns in Marion County and other Ohio localities actually showed an increase. This was regarded by some public officials

"LOVE"  
Easter Attraction.  
THE MARION  
Starring

as evidence that the majority of citizens are more likely to comply with the tax laws if allowed to act voluntarily than when prevailed upon by assessors.

But the increase failed to continue permanently. After the lapse of a year or so, the volume of returns started in the other direction. As a result, county and state officials are discussing the advisability of employing a new assessing system. The Marion County auditor, treasurer and chairman of the board of county commissioners recently attended a district conference at which this subject was discussed.

The general opinion is that the voluntary plan of listing property was never so satisfactory and that something like the old plan of employing assessors may become necessary.

Taxes, officials point out, must be paid if government and public services are maintained on an adequate scale. And taxes cannot be collected if property is held under cover.

UNIQUE in the line of athletic trophies is the basketball which which students of Central Junior High School defeated Vernon Heights Junior High, in two of a series of three games this year. The ball, awarded the winning team, was painted green with the inscription in white letters "Vernon-Central Series, 1928". Green and white are Central's colors.

Beneath the ball, now on exhibition in the display case in the entrance hall at Central, is a card with the rabbit's foot thought to have been responsible for Central's good fortune. The card bears the words: "Presented by Miss Hazel Huestetter's home room for luck in the Vernon-Central games."

CHICKEN fighting, once a popular sport in Marion County, has lost ground here in recent years until now the pastime is staged only on rare occasions, according to information coming from those who were formerly active in the game.

There are still a number of citizens who own and train fighting fowls but it is seldom that battles are arranged. When such events do take place, they are surrounded by utmost secrecy, for local authorities, both city and county, draw the line rigidly against this line of sport.

A reminder of the days when interest was high in chicken fighting here developed several days ago with reports from Newark stating that more than 200 persons were arrested at a tournament being staged near Buckeye Lake. The roundup of prisoners was so extensive that the sheriff was forced to release many of the captives, not having enough automobiles to convey them to court.

It was reported that a purse of

## "KNIGHTHOOD IN HOLLYWOOD"

"SIR" CHARLES CHAPLIN

ill of the flu the past week, is able to be back at school.

All the world's a stage and men and women ride in buses.

### CHARLIE CHAPLIN

CAN it be true?

Quite the thing.

Hollywood is all in a flutter over the report that their dear Charlie is to be knighted.

Our Charlie, of the funny pants, and lumber cane, elevated to the heights of knighthood.

What a man he would have been for King Arthur!

He could have convulsed all of England's fops and the rest would have been a easy for the bold Knights of the Round Table.

His acting has caught the imagination of the Englishman and he is all for the idea.

Under all the makeup you will find a serious manner. You will find a man who is always trying to give the world a bit of happiness.

Hollywood is also with the scheme to have one of their number a knight. It would lend no end of prestige to the movie world.

No matter what comes off, Charlie in his monochrome makes a nifty looking knight.

\$10,000 was up on the main bout between a pair of prize game cocks. This is considerably in excess of any wager ever made on a fight in Marion County, old-time followers of the sport state, although they do recall events when sums of formidable proportions were at stake.

The fights in this locality were usually staged in barns and other farm buildings near the city. Arrangements for the events included preparation of regulation fighting arenas with terraced seats built for spectators.

THE local board of education is already making preparations for the next school year by planning building improvements and repairs and arranging for purchase of coal.

The annual fuel bill for the schools furnished the basis of an interesting analysis compiled some time ago by Superintendent J. H. Mason.

His statement, copies of which were submitted to all members of the board, showed the cost of heating the various buildings in detail. It furnished unmistakable evidence of the value of modern and up-to-date heating equipment.

Heating expense of buildings equipped with old-style hot air plants ran considerably above the cost where more up-to-date systems are in use.

From the information obtained by the superintendent, the board expects eventually to work out substantial economies through reduction in fuel costs.

## ENGLISH BASS SINGERS BEG FOR NEW NUMBERS

London—British bass singers have joined in a deep and rumbling chorus of "beg."

Their trouble is that they have no songs to sing. Nobody is writing bass songs. The men with the low, sonorous voices are singing the songs their fathers sang because they are no new ones.

They complain because Canon Lancelotti, looking for the like, says that "there are no big bass voices now."

"Something is happening," he says, "to make a four bass singers tend to the baritone voice."

But the British singers say that what is happening is that because there are no bass songs, bass singers would otherwise be scarce and having their voices travel up to baritone pitch, hence the change in basses profound.

At present baritone are most plentiful, with tenors next and basses fewest of all.

## The Toughest Old Cough

Can Now Be Stopped

Obstinate, lingering, coughs—the kind that hang on and hang on and rob a man of his sleep—the kind that makes him peevish and all worn out.

Those are the breed of coughs that prove that common sweet cough syrups are about as useful as a bottle of ginger pop.

The quickest and surest way to get rid of a persistent, contrary, die hard cough is to take a teaspoonful of Broncholine Emulsion four times a day.

This REAL cough medicine is made to stop the old timers—the tough ones—the obstinate ones—and it does it without any loss of time.

And remember, there is no chloroform—no sugar—no dope in this grand cough medicine. It is a prescription for stubborn coughs and that's the kind it speedsily conquers.

For ordinary coughs—two doses is usually enough. Henney & Cooper will gladly supply you so will dealers everywhere.—Ad.

Who Want An Automobile That Looks Like Something—Acts Like Something—Is Something—Yet Costs Comparatively Little

IF I were a woman, I'd want a certain kind of automobile.

Of course, I'd want it to look like something. For you see, it will be almost a part of me, my life, my home.

And I wouldn't want to pay a fortune for it, because I know too well the value of the dollar.

But I would want far more.

I'd want nimbleness, easy steering, dashing pick-up, certain stopping to end traffic terrors.

I'd want the ability to twist easily into tight parking corners.

I'd want sure-footed, positive braking on

those rainy, wet days when I drive the children to school.

And on certain afternoons, when I'm tired of dusting and dishes, I'd want my car to be a care-free vagabond with me, interested only in finding out what is on the other side of some distant, wind-swept hill.

of the City Board of Health at the monthly meeting of the board held yesterday afternoon.

In a recent medical meeting at Marion, a doctor told members of the board that the state man was generous in his opinion of the co-operation given the state by both the city and county health boards.

Two Diphtheria Cases  
But two cases of diphtheria were reported in the city in March. It was reported by Health Commissioner Weiser, yesterday. Of those cases, one was that of a small child brought to this city from LaRue for treatment and that of a stranger who took suddenly ill but who disappeared while physicians were waiting for a report on the throat swab to determine the nature of the illness.

The health commissioner also reported that he had made 20 visits to the O. C. Pearson home at 440 Ballou street during the illness of Mrs. Pearson from smallpox. Eight children and two adults, who had been exposed to the disease, were vaccinated to prevent a further spread of the disease.

The health commissioner also reported that he had examined two boys during the month for working certificates. He also examined 12 food handlers and assisted at the clinic at the City hospital. He examined a total of 178 first grade pupils, including 50 at Oakland, 30 at Davis, 27 at Oliver and 62 at Glenwood.

**DECLARES PROVISION VIOLATES PRINCIPLE**

Supreme Court Hands Down Opinion on Vote Fixing Law of Constitution

Columbus, April 5.—That the provision of the Ohio Constitution which fixes the vote by which the State Supreme Court may declare a law unconstitutional and void "as without parallel in any state in the Union and is violative of the basic principle of popular government, which always must rest upon the legal acceptance of the majority vote" is the charge contained in an opinion handed down yesterday by the Supreme Court. The opinion was written by Chief Justice C. T. Marshall.

This provision decrees that the Supreme Court cannot declare a law unconstitutional unless all but one of the judges so vote. The only exception is in the case of affirming a judgment of an appellate court which has declared a law unconstitutional.

While the constitutional provision has taken from the Supreme Court the power to declare a legislative act to be unconstitutional, it has not taken away from the court the power to declare a legislative act to be unconstitutional.

## SOLDIER DIES NEAR NEVADA

World War Veteran Succumbs  
After Three Years' Illness;  
Funeral Saturday

Nevada, April 5—Paul Eston Groce, World War Veteran, died at 6 o'clock this morning at the home of his parents, Mr. and Mrs. J. E. Groce, one and one-half miles south of here. Death followed a three-year illness of complications. He had been bedfast since January last year.

Military funeral services will be conducted by members of the Nevada Post at 2 o'clock Saturday afternoon at the home, with Rev. H. A. Richardson, pastor of the Lutheran Church, officiating for the religious rites. Interment will be made in the Nevada Cemetery.

Mr. Groce was born Oct. 17, 1894, on a farm near here and was the son of J. E. and Lora Maskey Groce. Surviving with the parents are three sisters, Mrs. John Webb and Mrs. Merle Wickhiser, of Marion, and Mrs. Allan Wyncoop, of Youngstown, and two brothers, Robert Groce, of Marion, and Chester Groce, of Buffalo.

Mr. Groce was a member of the Lutheran Church and fraternally was affiliated with the Masonic and Knights of Pythias Lodges. He was a member of the American Legion, enlisting for service July 21, 1917, in the 106th Infantry, Rainbow Division. He served with the Army of Occupation in Germany and was wounded in the Battle of the Argonne. He also was gassed in the battle of Champagne. He returned home in 1919.

### MEASLES EPIDEMIC

71 Cases Reported in March at Bucyrus, Officer Reported

Bucyrus, April 5—The heaviest record of an epidemic of measles in 27 years was reported for March by Dr. W. G. Carlisle city health commissioner. From March 1 to March 31, 71 cases of measles were reported. In other years he said measles epidemic were chiefly confined to one or two sections of the city but this year it has spread to all parts of the town, in some cases, to the extreme outlying houses within the city limits.

Commissioner Carlisle has established a precedent for Bucyrus by ordering all future cases of chickenpox occurring within the city limits quarantined as it is now doing in rural districts throughout the county.

### WARNS AGAINST CUT

Mills Says \$300,000,000 Tax Reduction Would Mean Deficit

Washington, April 5—The \$300,000,000 tax reduction proposed by Democrats in Congress yesterday would mean a Treasury deficit of \$100,000,000 in 1929, Acting Secretary of the Treasury Mills declared today.

Mills declared the Treasury estimates of an unadjusted revenue have not been shown to be inaccurate, and "no serious proposal of a \$300,000,000 reduction should be made until some evidence is produced" that the estimates are not accurate.

### LEAGUE IS REBUKED, U. S. DRIVES ON DRUGS

Secretary of State Kellogg Announces Independent Program to Curb Narcotics

Washington, April 5—The United States emphatically rebuked the League of Nations today in formally announcing an independent program for international action to curb traffic in opium and other narcotics.

Coming on the eve of the eleventh session of the League's advisory committee on opium, Secretary of State Kellogg's announcement constitutes a sensational step in the world war against dangerous drugs.

Impatient with the repeated failure of the League committee to bring about effective reform in opium production and distribution, Kellogg has initiated negotiations through regular diplomatic channels for direct action in suppressing the outlaw trade.

Kellogg's program was outlined today in a letter to Senator Smoot, Republican of Utah, chairman of the Senate Finance Committee. It reaffirms American allegiance to the aims of The Hague opium convention of 1912 and chides the League committee for its repeated failure to approve a drastic program consonant with that declaration of intent.

### CONTINUE TO HEAR THAT

LEON TROTZKY WAS SHOT

London, April 5—Despite emphatic denials by the Soviet Government that Leon Trotsky, deposed Russian leader, had been shot, an Exchange telegraph dispatch from Helsingfors today stated that diplomatic circles at the Finnish capital were informed that Trotsky had been accidentally shot while on a hunting trip.

The Exchange dispatch stated that the bullet which struck the Bolshevik leader was accidentally fired by a companion of Trotsky on the trip.

### TWO HURT IN PLANE

Philadelphia, April 5—Two men were cut and bruised when the airplane in which they were flying from New York to Pittsford Aviation Field, Bryn Athyn, was wrecked in a crash near Jenkintown. William Patterson, pilot of New York, may have a broken nose in addition to other injuries. His passenger was James McAllister, Brooklyn.

## DOPE RING SEARCH MOVES TO OHIO CITY

Woman and Daughter Believed To Be Used as Foils in Traffic Sought

Toledo, April 5—Search for an international ring of dope peddlers moved to Zanesville today, where Mrs. Mary Rose, 24, and her seven-year-old daughter Rose are said to be used as foils in narcotic traffic.

Trace of the woman was obtained when her husband, Daniel Rose, reported to police that he had traced his wife to a Detroit hotel where she had registered as Mrs. Gallagher, her name before she was married. Rose told police he lost trace of his wife at Detroit, then he attempted to report finding her to police. She was under the influence of narcotics, Rose said.

Police and federal investigators did not say how they believed the trail led to Zanesville, but said that Mrs. Rose had been in company with a man who was believed to have represented himself as Paul Gilliland, federal narcotics agent, here. The man is said to have passed several worthless checks, using Gilliland's name.

William Gallagher, father of the missing woman, was so overcome at his daughter's disappearance that he was removed to St. Vincent's Hospital. The Gallagher family formerly resided at Pearsburg.

### CONCERN EXPRESSED

FOR CHICAGO POLLS

Fear Balloting Will Be Restricted Through Fear of Voters

Chicago, April 4—With the United States government's announced policy of "bank off" in Chicago's volatile political situation, grave concern was expressed today for the orderly conduct of the primary election next Tuesday.

United States Marshal Palmer Anderson had asked permission to swear in 500 deputy marshals to assist local authorities in guarding the polls. This was refused in an official communication from Attorney General Sargent at Washington.

Simultaneously Police Commissioner Michael Hughes announced it would be impossible to station police officers at all polling places.

There are many faction-forn precincts where two or more officers should be posted at each voting place. Many persons in Chicago, especially women, are actually afraid to go to the polls. It is believed in some quarters that the government's announcement not to help in maintaining order at the polls will seriously restrict the voting.

### PROHIBITION HAD NO PART

IN LIFE OF SHAKESPEARE

London, April 5—That prohibition had no part in the life of Shakespeare is shown by the famous "Ward diary" which was purchased at Sotheby's by Dr. A. S. Rosenbach, of Philadelphia, for \$52,500. The author of the diary, John Ward vicar at Stratford-on-Avon from 1602 to 1681, said that the famous Bard of Avon died of a fever contracted after drinking with "Rare Ben" Johnson and others.

## First Mortgages in Morrow County Filed Jan. 11, 1848

At Gilgus, April 5—The first mortgage on record in Morrow County was filed Jan. 11, 1848, the year in which the county was organized, separately from Knox County. The mortgage was by Charles Jagger and Rhoda Jagger to James H. Brown for \$500. It covered 80 acres of Township 17, present day, with reference to part of what was then Knox County. Samuel Pollock, first recorder, received the mortgage. The Probate Judge's office and the office of Clerk of Courts were established in 1852, four years after the recorder's office was established. Seventeen mortgages have been served in Morrow County. The first was filed by Charles Jagger and Benjamin F. Truax, first clerk of courts. George N. Clark was named first representative in 1852 and Lawrence Van Buren was selected senator in 1852.

Ross Burns was first sheriff, beginning his term in 1848. One year later the office of county treasurer was established with William Gellat as official. F. B. MacMillin, president of the Ohio Chamber of Commerce and official of the Hydraulic Press Mfg. Co., was probate judge in 1895 for a few weeks. The longest term served by recorder was the term of E. C. Chase who served nine years, 1901-10.

## CITY STARTS SUIT AGAINST RAILWAY

Kenton Council Fights Erie's Plan for Crossing Flasher Lights

Kenton, April 5—Legal steps to prevent the Chicago & Erie Railroad Co. from erecting flasher light warning signs at the intersection of its tracks with S. Main-st. were taken here today by the City of Kenton today when Solicitor Carter W. Schwemer filed injunction proceedings in the Hardin County Court of Common Pleas.

A temporary restraining order has been granted by Judge Hamilton E. Hoge, pending hearing on the question of whether or not the injunction will be made permanent or dismissed.

### Appears Before Council

Recently attorneys for the Erie appeared before city council seeking permission to replace the present station man at the Main-st. crossing with flasher lights. The request was turned down. Later the city filed application with the state utilities commission asking that that body direct the Erie to maintain 24-hour watchman service at Main-st. and provide other protection at other street crossings over the railroad.

The city charges that the lights when erected upon boxes and pedestals will obstruct, impede, and interfere with the free and uninterrupted and lawful use of the streets; that they will become a permanent nuisance and that excavations for the erection and maintenance of the lights will result in irreparable injury to the street.

The city in its petition also charges that the Erie unlawfully appropriated city land to its own use "all to the damage of the plaintiff in the sum of \$1,103.41." Judgment for that amount is asked.

## Growing Children

sometimes require a tonic as do their elders \*

GIVE your child the right chance to develop, and you will not regret it in later years.

Many children become under-nourished due to lack of appetite. Keep the appetite keen. Food nourishes the body and makes it grow.

Also watch Nature's warning for changes in the system. Skin troubles—pimples, boils and that sallow complexion—all foretell a body weakness.

In such cases, S.S.S. is the proper tonic. It improves the appetite; helps

Nature build rich, red blood cells—those vitalizing elements in the blood that build and sustain the body.

In building rich, red blood cells, S.S.S. improves the processes by which the body is nourished.

For more than 100 years, S.S.S. has been helping children and their elders regain strength and vitality.

Children like S.S.S. It is made from the fresh roots of medicinal herbs and plants, and is prepared in a scientific way in a modern laboratory.

\* The physical welfare of the child is being given more attention by school authorities. Failure to keep up with class work and absence from school is probably due to a nervousness and run-down condition that may be largely attributed to a deficiency in red blood cells.

### The Funeral Via Motor Car

OUR limousine style of casket coach is of most modern design and manufacture.

Beautifully similar in all outward appearance to the other cars in the cortege, that undesired prominence is absent; and, instead, a more uniform and comforting character is given the funeral.

The funeral via motor car thus becomes more than merely a modern mode of conveyance; deep consideration for the departed is also effectively expressed.

incalculable effect upon the future of bituminous coal and nearly all foreign countries represented in Washington have been invited to send delegates to the coming conference.

Although more than 1700 delegates from 13 different nations were present at the first conference held in 1920, officials of the school look forward to larger delegations and a more widespread representation this year.

In the Old World educational centers he is investigating new sources of scientific information and inviting the foremost fuel technologists to add their knowledge to the vast store which will be assembled at the coming proceedings.

It is reported at the institution that Dr. Baker has already received several assurances from prominent European scientists.

**Smokeless Fuel**  
In Nature's stores of soft coal technologists expect to find the key to smokeless fuel, fertilizers made from coal, low and high distillation processes for the production of useful products and gasification of coal.

All of these subjects and others equally important were discussed at the first conference and this year the scientists will come bringing news of further progress which has been made toward the various goals and new fields which have opened to their view.

In its constant press onward civilization has overcome all obstacles which the pessimists of the various ages believed would bring the downfall of civilization. The extinction of the whales would cut off the supply of oil, they said, and man bored into the bowels of the earth for a new and greater supply of oil.

"The supply of natural gas will soon be gone," they mourned, "and we will be without good lights." Giant streams were harnessed and compelled to release their perpetual surge of power to light millions of lights better than those supplied by gas and give power which it had never possessed.

So now while pessimists are predicting that the cars of the future must stand idle beside empty oil wells, science is preparing to open the way to a flood of cheap fuel so plentiful that before the last of the great oil fields is drained, petroleum may be of no more commercial importance than whale oil.

### This Prescription For Kidneys

No Drugs—Just Roots and Herbs  
Ten years ago Dr. Carey said, "When backache comes get after your kidneys—and don't waste any time."

"Right at the start, go to your druggist, and ask for Dr. Carey's Prescription No. 777; take it as directed until backache ceases and your eyes are clear and bright."

Thousands of unobservant people have kidney ailments, and never know it until too late. Highly colored urine, getting up in the night, and puffy eyes tell the story.

If you even suspect—start today with Dr. Carey's Prescription No. 777. It will drive the poisons from your kidneys.

Henney & Cooper dispenses lots of it. It will help you as it has a host of others. If it should not, if you aren't glad in one week's time that you bought it, money gladly returned.—Ad.

Eastern Business Man Taken After Girl's Body Is Found

**BULLETIN**  
Concord, Mass., April 5—Pain and worn after many hours of grilling, Frederick Hinman Knowlton, Jr., young Framingham business man, married and father of a five-year-old son, pleaded not guilty in a clear firm voice in District Court today to a charge of murder in connection with the slaying of Miss Marguerite Isabelle Stewart, Beverly school teacher.

Cambridge, Mass., April 5—Frederick Hinman Knowlton, Jr., prosperous young business man of Framingham, was held today in connection with the death of Marguerite Isabelle Stewart, Beverly teacher-supervisor, whose bruised body was found beside the Cambridge turnpike in Concord last Friday night.

Knowlton, who has a wife and a child, admitted he had been friendly with the girl, had been on an automobile ride with her the night she died and washed and renovated his roadside with water and chloride of lime the next day.

Grilling of Knowlton, who is 34 years old and operates an electric and automobile battery establishment in Framingham was interrupted long enough to let him have a little sleep and to take

## Cook With Gas

—beyond the Gas Service limits

Kitchenkook brings to rural and suburban homes and city homes outside the gas limits, every convenience of city gas. In fact, it is a gas stove, with its own gas plant built right into it. Makes and burns its own gas from common gasoline, producing the fastest known cooking fire. Kitchenkook is different from any stove you have ever used. It has all the fine features of gas with none of the objectionable features of common liquid fuel stoves; no wicks or chimneys; no smoke, soot or kerosene odor. Takes less than a minute to light; then all burners are ready at once. Turn them on or off as wanted, just like gas. Kitchenkook is the biggest improvement in fine cook stoves in the past quarter century. It's the sensation of the industry. Don't fail to ask for a demonstration of this wonder cook stove. Made in 16 attractive models.

# Bacon Plans Heavy Hitting Team for Marion This Year

## SPRING PRACTICE TO START FOR PLAYERS SUNDAY AFTERNOON

Strong Pitching Staff May Be Headed by Harve Ferner of Kenton

By KARL R. MUELOY  
Sports Editor

Attention of Manager Francis Bacon of the Marion Eagles will be centered on obtaining a heavy hitting team this season as spring training season opens at Lincoln Park diamonds Sunday afternoon. At 1:30 o'clock ball players of Marion will take the field to compete for berths on the team.

Many new faces will be seen in the Eagles' uniform this year. According to plans being worked out at the present time, players with league experience will be worked in on the team to assure fans of fast fielding and better baseball.

Bacon dropped into the office—dropped in correct—to talk things over and in the midst of his conversation he pulled a big surprise by saying that the Eagles would have the best team in history. And he meant it.

**New Catcher**  
A new catcher will be behind the home plate. Backslider, Ohio Wesleyan man who is coaching at Toledo, will do the bulk of the receiving this season. He is a very heavy hitter and a good thrower. He combines good baseball sense with a knowledge of pitchers.

A greatly strengthened pitching staff will be used this season. Heading the list of proposed moundmen is Harve Ferner of Kenton. Ferner has been pitching in professional ball a number of years and for several seasons played league ball. Lefty Beeler, a port rider of Wooster, along with two others is trying out for a steady job on the mound.

### Schwartz To Report

Don Schwartz, who played two years ago in the industrial leagues here, is bidding for third sack. He has played with Bluffton College and last year played semi-pro ball in Ohio. He is a good fielder and thrower but his hitting ability will be determined later.

In addition to Marion scout artists, players from Kenton, Green Camp, Waldo and Mansfield are expected to turn out Sunday.

The park has been plowed and leveled preliminary to the opening of the practice season. The grandstand will be repaired and the fence moved back. A betting cage will be constructed for practice.

### NEW PLAYERS SHOWING UP GOOD ON CLEVELAND CLUB

Montgomery, Ala., April 5—Eddie Morgan, Kenner, Ia., is sitting in nicely at centerfield for the Cleveland Indians, while Carl Lind, New Orleans youth, has shown good form at short, substituting for the injured Joe Sewell. The Indians whipped Montgomery here yesterday 6 to 1. George A. Grant, hailing from Marbury, near here, pitched four innings for Cleveland, allowing only two hits. The two teams played only today.

### BUCS GET START

San Antonio, Tex., April 5—Inspired by the first victory in six games, the Pittsburgh Pirates planned today to defeat the San Antonio club of the Texas League for the second successive time. The score of the victory yesterday was 10-6, but the Bucs had to battle 11 innings to win.

## GUNNING FOR CHANCE AT WORLD'S TITLE

Take your pick. Here is the elite of the cauliflower industry in the heavy class who are looking to get a crack at Gene Tunney's crown. Upper left is Jack Dempsey who has had two tries under the belt. Lower left is Paulino

Ureduin, the Basque woodchopper who figures that chances are good. Beside them is Gene Tunney, the world's champion, who is ready to take on any logical man. Center top is Jack Sharkey, Boston strong boy, who rates among the

foremost contenders, while below him is Tom Heeney, who feels that he should have first chance. Upper right is George Godfrey, who is seriously taken in some quarters, and lower right Jack Delaney, who has only recently graduated to the heavy class.

## TEAMS STRENGTHEN KEYSTONE POSITION BY BUYING PLAYERS

Shortstops and Second Basemen Now Being Purchased Together in Major Leagues

New York, April 5—Maybe the boys who buy them and try them have hit upon a new wrinkle in the development of young major league ball players on and around second base, the key position of the defense behind the pitcher. Anyhow, it seems significant that when the Yankees decided to strengthen Gibraltar they paid \$150,000 for a combination, instead of buying one here and another there, and when the Browns decided to build anew they brought in Otis Brannon and Ralph Kress, second basemen and shortstop respectively from Tulsa.

Jimmy Reese and Lyn Lary won't get their chance to vindicate Yankee tactics until 1929, this being one of the terms of sale demanded by Oakland. But Brannon and Kress are right in there already and the early returns indicate that the St. Louis management might have done worse.

**Natural Players**  
Dan Howley freely admits that the pair has plenty to learn but he is grateful for one thing: He does not have to accustom the young men to each other. They already have put in a full campaign together at Tulsa and this fact has had its effect in getting them by to date. However, the boys themselves have had something to do with it, too. Lacking experience though they may, they seem to be natural ball players and, in the exhibition games so far, they have done many things right and nothing very wrong.

In addition both hit like fools

through the month of March, supplying a lot of punch that served to make the Browns' early exhibition record what it was. What they will do under fire on the big time may be something else but there is no doubt that the stuff is there and Howley is taking the best method of getting it out of them. Confidence in each other possibly has resulted in Otis Brannon and Ralph Kress each having confidence in himself.

### Oakland Started It

Perhaps Oakland started something when it insisted on Reese and Lary going to the same major league club, because it liked the boys and knew that they were necessary to each other. The writer recalls that Dave Bancroft was a member of such a combination in Portland when he was sold to the Phillies in 1915. The Phils might easily have taken the other man, whose names escapes me, for they were so pressed for a second baseman that they were forced to re-model Bert Niehoff, who previously had played only at third base.

### Work Out Well

Everything worked out for the best, of course, as Bancroft became an overnight star. Niehoff did very well at second and the Phillies won their only pennant forthwith. But there remains always the possibility that the other Portland man might have made the rifle if he had been allowed to come up with Bancroft.

Afterward, this man got a trial with the Reds but didn't last long enough to get his lucky number right. This didn't prove that he was a sap ball player, either. Bancroft hit National League pitching much better than he did the minor league variety. His boy friend failed to hit the Reds. Psychology plays such an abiding part in the successful development of a major leaguer that it seems to me entirely possible that the other man might have done much better with his friend alongside of him.

Naturally, a club that has a star in one of the positions won't be greatly interested in buying a combination in order to plug the other post. But there are plenty of clubs that have a star in neither position. If the latter want to look forward a year or so they might do worse than buy a combination, provided both of its members look the part sufficiently.

## ONE LONE EASTERN QUINTET HOLDS OUT IN CHICAGO TOURNEY

Southern and Western Fives Stop Atlantic Coast Teams in Second Round

Chicago, April 5—The east had one lone hope today in the free-for-all battle being waged at the University of Chicago for the interscholastic basketball championship of the United States. That one hope is pinned on a husky quintet from Bristol, Conn. A half dozen other eastern teams have been routed by southern and western fives.

Bristol gave a noble exhibition of skillful cage play late yesterday against Pine Bluff, Ark. The score was 14 to 13. The easterners meet the tough Carr Creek, Ky., five in a third round game today. The Carr Creek boys have been one of the sensations of the tourney to date.

The Kentuckians fought their way to the third round by eliminating the tall Texas Rangers from Austin, 25 to 13.

Vienca, Ga., leaped to prominence by swamping the highly-rated Aankou, S. D., five, 42 to 21. Another southern team that is making a strong bid for the title is Mize, Miss. This flashy quintet triumphed yesterday over South Portland, Me., 29 to 19.

Other second round results follow: Stivers, Dayton, O., 35; St. Paul, Neb., 30.

St. George, Utah, 26; Purdy, Tenn., 20.

Grand Forks, N. D., 35; Wilmington, N. C., 17.

Canon, Ill., 28; Fort Collins, Colo., 15.

## FOUR STATES WILL BE REPRESENTED IN WRESTLING TRYOUTS

Marion Boy Will Compete for Berth on Olympic Team

Columbus, April 5—Amateur wrestling in the sectional Olympic tryouts will meet at the gymnasium of the Ohio State University, Friday and Saturday of this week.

The rules to be used in the Olympic matches, by which three judges will decide who is the winner of a bout by a point system, will be in form for the tryouts. Thor Olson, wrestling coach of Ohio University, will referee while James Oberlander, Leo Staley and Dan Hummel of Ohio State will serve as judges.

Cleveland and Columbus have entered large lists of competitors in the tryouts. Stanford G. Ackley, of Marion, will be one of Ohio State's representatives in the matches. Neal S. Robinson, of Mansfield, is also entered. Harry Steele, of Sparta, chairman of the Western Conference, wants a student at Ohio State and the 1924 Olympic heavyweight champion, will inaugurate his campaign to retain his title by competing in the Ohio State tryouts.

Although not in this section, Indiana University has entered eight men. Wrestlers are permitted to try out in any section of the United States.

The wrestlers qualifying in the district trials will go to Grand Rapids, for the final contest for Olympic berths.

## RISKO SUBSTITUTE

Would Meet Tunney If Illness Prevents  
New York, April 5—If illness prevents Tom Heeney from participating in his title fight Gene Tunney, he will be replaced by Johnny Risko, a Cleveland baker boy who is regarded as one of the leading contenders. A tentative agreement to this effect has been reached by Danny Dunn, Risko's manager, and Jess McMahon, chief lieutenant of Promoter Tex Rickard. Dunn made it clear, however, that Risko's "pinch-hitter" role would not prevent him from signing for other matches in the meantime.

That many million men  
can't be wrong

FIGURES show that more Prince Albert is smoked by experienced jimmy-pipers than any other brand. You might give any of a dozen reasons why they bought their first tin of P.A. But their tenth and their hundredth . . . only demonstrated quality can account for that! Wouldn't you say so?

The very fragrance of P.A. is an indication of the quality-taste still to come. The first fire-up makes good on the aromatic promise. Cool as a steeple-jack doing his stuff. Sweet as getting back to earth again

safely. Mild and mellow and long-burning. Some tobacco, Men, and no mistake!

If you don't know the joys of a pipe packed with P.A., get busy and make up for lost time. No matter what your present set-up may be, try Prince Albert. It is not an experiment, but an experience—a little journey into a land of pipe-joy that you'll take many times every day.

The revenue stamp tells you—TWO full ounces in every tin.

# Early Records Point to Cubs and Giants in National

## TEAMS RUN WILD IN PRE-SEASON GAMES WITH OTHER CLUBS

New Yorkers Pile Up String of Wins; Chicago Sets Mad Pace

BY DAVID J. WALSH  
April 5.—If early speed is to mean anything more than a few wins, the New York Giants and Chicago Cubs could figure today as the early leaders of the National League. This season's early season has been through its exhibition games and without question the early season is yards beyond the rest of the field.

The Giants, too, as the Senators and Red Sox have been early in their inter-league games, but not at all in their inter-league games.

## "Strangler" Lewis Square, Says Sandow

BY FRANK G. MENKE

BILLY SANDOW has become sore distressed because some of the boys still get his exercise leaving bricks at Ed ("Strangler") Lewis, the grappling king, whose destiny Sandow has piloted through 15 years.

"I'm not saying that everything that's happened in a wrestling world through the last decade or two is wholly on the up-and-up," explodes Sandow. "I can't answer for, nor be accountable for what other men involved in the game have done—or have failed to do."

"But I'm getting a pain in the neck from finding that Lewis and myself are constantly branded with the same tarred sticks that is used on other fellows."

At this point, it might be well to explain that for quite a few seasons, while Sandow was allied with the Jack Curley wrestling interests, this column took the attitude that the "trust" wrestlers were hippodrome artists and burlesques on the thing that's honest.

Sandow and Lewis since they have broken away from the "trust" or rather, the combine has busted. Curley and Sandow now have a habit of looking the other way when they meet at the crossroads. And Sandow dislikes being confused now with Curley—and the Curley methods.

Sandow took the attitude that this column has not given him a full chance to chant his side of the story. So the promise was made to him that his viewpoint would be printed. That's the way and whereof of this article.

"Lewis and I stand on our records," he added, "for 15 years he has been wrestling throughout America—and also in Europe. For just so many years I have been managing him. I don't any one to come along and prove the truth of any of the insinuations of dishonesty concerning any of the matches in which Lewis was a participant."

"Some folks can be fooled some of the time; others can be fooled all the time. Yet all of them can't be fooled the outfit is made."

All I can venture is that the Giants turned loose two nine inning pitchers a few days ago in Benton and Henry, who allowed the Senators only three runs over 15 innings, which is pitching this time of the year, that the club is hitting far over its collective head and that Housh is ready for the season's opening for the first time in years.

In his 15 years as a wrestler, Strangler Lewis has been beaten only three times. Now if he were part of a combine where taking was the prime motive, do you suppose that the other wrestlers—and their managers—would constantly lose to Lewis so that Lewis would continue to be the headliner and so that Lewis and I would continue to get the big money?

"If Lewis had been part of any hippodrome thing, the other fellows wouldn't have let him win as often as he did. They would have insisted upon their having a turn at winning, too, wouldn't they? Does anyone suppose they have let Lewis go on for 15 years and win every match except three? Doesn't that prove that Lewis has been a 'shooter' in his matches; that he always has been out to win and by winning has demonstrated that he is the greatest wrestler of this era—and one of the stars of all time?"

Into towns like that, year after year, for 15 years, Strangler and I have gone—and Strangler has wrestled. He's grappled with every man of importance from coast to coast from the Gulf to the Canadian border. He has wrestled hundreds of men—wrestled thousands of fans.

Just Can't Be Done  
"If the Strangler wasn't shooting in all his matches; if he wasn't wrestling to win in all of them, don't you suppose that he'd have been discovered, sooner or later? It might be possible to do a phoney in one town—maybe in half a dozen and get away with it for six months—perhaps a year. But it simply can't be done for 15 years before suspicious thousands in hundreds of suspicious cities."

"And one thing more. 'Any time any crooked deal is made it is necessary that several persons must be in on the know.'"

"Fellows like that—the rats who become parts of a 'frameup'—become 'squealers' sooner or later. They don't keep quiet, especially after time, age or inability has rendered them useless parts of a racket and the shifting tides of fortune have carried them out of the scene."

"Anybody ever hear anybody yelling that he faked for the benefit of Strangler Lewis?"

Beaten Three Times  
Billy Sandow drew a slightly longer breath and continued:

## WALKER SIGNS

Mickey Will Meet Ace Huddins For Title July 15

Chicago, April 5.—Mickey Walker, middleweight champion of the world, and Ace Huddins, the Nebraska Wildcat, will clash in a 10-round championship bout here July 15. Promoter Jim Mullen announced today. Walker's crown will be at stake.

Jack Kearns, Walker's manager, and the middleweight champion reached Chicago from Los Angeles yesterday and immediately went into conference with Mullen.

Terms of the contract were not announced, but it is understood the "Tor Bulldog" will fight on a percentage basis. The bout will be held at Soldiers' Field. It is expected to gross a rate of \$200,000.

Walker at present is under a ban imposed by the National Boxing Association. His case, however, is not complicated and it is believed he will have little trouble in being reinstated.

Poor Pitching Holds Up Yankees; Sluggers Connect  
Knoxville, Tenn., April 5.—Alabe Ruth has hit two homers in as many days and the other regulars of the New York Yankees are whaling the ball, but poor pitching has resulted in a long string of defeats for the world champions. They got 14 hits yesterday, including Ruth's second homer of the season, but Nashville pounded Shaley and Moore and nosed out the Yanks in the tenth, 11 to 10.

The New Yorkers play Knoxville today. If one could hear the real opinion of others about himself he might be as much cheered as cast down.

## SWIMMERS AT YALE LOSE BUT TWO TANK MEETS IN 11 SEASONS

Coach "Bob" Kipputh Is Central Figure Around Winning Teams

New Haven, Conn., April 5.—When the Yale Varsity swimming team finished its regular home season, early in March, setting the swimmers from the Naval Academy back in both swimming and water polo, a few more records were added to a list already amazingly long.

In the 11 years starting in 1917, Yale swimming teams have competed in 143 meets with other colleges, and lost only two: to Princeton once and to Navy once. When the Yale home swimming season closed, Coach Robert J. Kipputh, whose name has become a thing to conjure with among swimmers, had ended 11 years of service as head swimming coach at Yale, and was set to start his twelfth season. It was under the direction of Kipputh that Yale swimmers had captured 141 out of 143 meets with other educational institutions.

Credit to Kipputh  
"Bob" Kipputh, as all the men who have trained under him, call the stocky swimming coach, came to Yale in 1914 as a gymnasium assistant and went into the work of teaching swimming as a matter of routine. Three years later he became head coach of swimming. He had come to Yale via early training in

Towanda, N. Y., and work at Silver Bay School, and Harvard. Records began to fall almost as soon as he settled into his work here, and finally in 1920, four Yale men coached by Kipputh established the first world record to be made in swimming by the university here.

Starting with that first world record in 1920, Yale swimmers have put up 57 world records. Besides that they have set 14 intercollegiate records.

When "Bob" Kipputh first took charge of Yale swimming, the squad numbered an average of 40 men. As time went on and Yale became an outstanding school for swimming, the squads increased until this year no fewer than 200 men were out. In all Kipputh's career here 780 men have earned their laurels as Varsity swimmers and have retained at Yale a series of championships of great length.

As an indication of the popularity of water sports in the University here stands the record of awards granted Yale men for the work in competition. The roster at the close of the 1925 season had 670 names. The present year saw 100 names added.

Yale swimming teams compete about the intercollegiate circuit regularly and visit pools of schools not in the league. Back in 1921 a Kipputh team went west for a trip. They swam in 18 meets and won 14 of them.

Chicago Athletic club, home of famous swimmers, saw Yale defeated in the Chicago pool that year, and Horatio swimmer defeated Yale in an open water meet but Yale turned the tables by beating the same team in the indoor pool at Honolulu. That trip does not appear in the list of regular Yale competitions for it was an after-season affair.

## Good Friday To Be

SPECIAL PROGRAMS PLANNED

## Observed Over Radio

The spirit of the Lenten season that has characterized music of this week over the radio will be continued on the Good Friday programs of a majority of the stations.

Featuring the Good Friday program will be the blue network broadcast of "Crucifixion" by Sir John Stainer, which will be presented by a group of artists under the direction of Hugo Mariotti at 10 o'clock Friday night.

"The Crucifixion" is a meditation on the passion of Christ, with passages from the Bible arranged by the Rev. W. J. Sparrow-Rimmon, who has also added sacred verse. After a recitation by the tenor voice, in which Jesus addresses his disciples, the incidents of the crucifixion are recited by the various voices, leading to the Procession to Calvary, the Mystery and Majesty of the Divine Humiliation, the Fitful of the Passion, the Intercession, the Adoration of the Crucified, and the Final Appeal from the Cross. After the tenor voices have sung, "It Is Finished," a closing hymn ends the recital.

Dr. Fiedler to Talk  
Over the red network, Dr. Harry Emerson Fiedler, pastor of the Park Avenue Baptist Church, New York City, will be the presiding officer and speaker at the National Good Friday service to be broadcast at 11 o'clock. The service will be under the auspices of the Federal Council of Churches and will be conducted by the Greater New York Federation of Churches. Dr. Fiedler will talk on the subject, "The Meaning of the Cross." Other appropriate numbers will be included during this hour.

Many interesting features will be broadcast over both networks of the National Broadcasting Co. Friday night. Over the red division the Palmolive Hour at 10 o'clock will find varied selections of popular appeal being given on a somewhat dignified program. At 9 o'clock a priceless violin of

## AWARDING OF MEDAL FEATURE

AWARD of the Joseph Sullivan medal given only once every five years, will be a feature of the fifty-first annual commencement here June 11 at Ohio State University.

The medal will go to an alumnus or to a faculty member in recognition of a "notable achievement," under the terms of the award established by the late Dr. T. C. Mcendenhall, who was the last surviving member of the university's original faculty. The honor has been conferred only once before.

Eight persons have been formally nominated for the distinction. Six of them are alumni and two are professors here. All but one are men.

Seven of the eight whose names have been proposed to the faculty committee in charge of the award are shown here. They are Dorothy Canfield Fisher, Arlington, Vt., novelist, daughter of a former

president of the university; Col. George S. Burrell, Pittsburgh, engineer; Charles E. Ketterling, Dayton, inventor, engineer; Dr. Mark Francis, dean, school of veterinary medicine, Texas A. & M. College, conqueror of Texas fever in cattle; Dr. Francis Carter Wood, New York City, cancer research specialist; and Professor Herbert Osburn, entomologist, and Professor C. S. Plumb, authority on animal husbandry. The eighth is Dr. W. F. Gephart, St. Louis, banker, economist and former member of the faculty.

Dr. James R. Withrow is chairman of the committee in charge of the award. Name of the person honored will be announced at commencement time.

Benjamin G. Tamme, Pittsburgh, noted electrical engineer, who has since died, was the first recipient of the medal in 1923.

## Classified Ads Can Do the Whole Job! So Why Worry?

This is the time of the year when people move. You will find desirable houses to rent or buy in The Star's Real Estate columns. Under HAULING & STORAGE several firms are listed that will take care of the moving work. A HELP WANTED ad or SITUATION WANTED ad will produce someone to do the odd jobs. If the new place needs some redecorating, painting or papering, plumbing work, etc., take a glance at BUSINESS SERVICE.

Once established, you will want to give some thought to the lawns, the firms listed under PLANTS & FLOWERS will lend you every assistance. Perhaps it will be a place in the outskirts or in the country where you can have chickens, advertisements under PETS & POULTRY will direct you to reliable firms. And another thing—SPRING is always the time to go through your wardrobe, packing the heavier garments away for the summer months and bringing out the lighter apparel for the new season. Look at the Ads under BUSINESS SERVICE to find a good cleaner.

## ANSWER IS FILED BY STATE COMMISSION

Requests Dismissal of Workmen's Compensation Suit of John Bruce

An answer requesting dismissal of the petition of John Bruce in his suit against the Industrial Commission of Ohio, has been filed by the commission in the Common Pleas Court. Bruce seeks to collect damages for injuries which he claims permanently disabled him while he was an employee of the John D. Owens & Son Co., at Owens.

At the original hearing the commission denied the claim and upheld its action at a later hearing. Following the second hearing Bruce started court action to collect damages.

No Jury Order Issued  
Due to a misunderstanding regarding the date of a court order recorded in a docket at the County Clerk's office, it was erroneously reported in yesterday's paper that a special venire of petit jurors had been drawn in Common Pleas Court. No such order has been issued. The order referred to is an old one, entered on the docket more than a year ago.

Files Appeal  
John Watts has filed a petition in Common Pleas Court seeking judgment of \$150 against Zebadiah Stout, proprietor of the Stout Used Car Co. A verdict returned in favor of the plaintiff.

## M'FARLAND ISSUES BONFIRE WARNING

Chief Requests Caution Following Three Calls Received by Firemen

With three calls to fight grass fires, received at the central fire station between 1:30 yesterday afternoon and 1 o'clock this morning, Fire Chief McFarland has issued a warning against the careless lighting of bonfires in the vicinity of patches of dry weeds and grass.

While none of the fires extinguished by the firemen yesterday resulted in any property damage, much damage could have resulted had not the blazing grass been promptly extinguished. Especially was this the case at 1 o'clock this morning when firemen responded to a call from N. Main-st. near west of the Pennsylvania tracks, where burning grass was creeping up toward two garages.

At 1:27 o'clock yesterday Fire Chief McFarland, with several men from the central station answered a call sent in by residents of S. Prospect-st. near the Pennsylvania tracks, where the grass in a field had caught fire, probably from sparks from an engine. The fire was beaten out by the firemen with no damage.

At 2:10 a call was received from the vicinity of Wilson and Neil-sts. where grass in a vacant lot was on fire. The blaze was beat out by firemen with no loss.

## THREE FROM HERE INJURED IN CRASH

Local Residents Recovering Following Accident on Road Near Delaware

Mrs. Bert G. Martin and daughter, Laura, 331 Edgewood-dr., and James C. Foley, 340 Edgewood-dr., are today recovering from minor injuries sustained in an automobile accident which occurred about 6:20 o'clock Monday night four miles south of Delaware on the Delaware-Columbus road.

Mrs. Martin, the most seriously injured of the three, sustained fractured ribs and body cuts and bruises. The injured were taken to Jane Case Hospital, Delaware, for treatment, and that night left again for Jersey, O., where Tuesday they attended the funeral of Mrs. C. L. Martin, sister-in-law of Bert G. Martin.

The accident occurred when a passing motorist crowded the car driven by the local party into the ditch. The car turned a complete somersault. Other occupants of the machine were Bert G. Martin, Mrs. James C. Foley, Miss Jean Foley, 340 Edgewood-dr., and Paul Martin, 331 Edgewood-dr.

All have returned home from Jersey and are reported to be improving.

## STOP THE FAT AND GET THIN

The way to reduction is to stop the formation of fat. Modern science has found that way—by turning your food into fuel and energy—by supplying a natural element that helps do that. It is much better than starvation. That modern scientific method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. Now the results in slender figures, new beauty and vitality, are seen everywhere.

Each box of Marmola contains the formula, also the scientific reasons for results. So you know the effects are beneficial, and why they all occur. Learn what so many have learned in 20 years about it. Do it now. Ask your druggist for a \$1 box of Marmola and learn what it means to you.
